Changing Labour Party:

The Making of New Labour's European Policy Russell Holden, 2001-12-17 Russell Holden considers the policy reversal on Europe made by the Labour Party between 1983 and 1999. It charts and analyzes how the Party became pro-European with particular emphasis on how this change was conceived and implemented. In so doing it concentrates on how the European issue became a political priority and dynamic tool for promoting economic reform and Party unity, two essential requirements in making the Party New Labour a credible alternative government in the eyes of the general public. *New Labour's Foreign Policy* Richard Little, Mark Wickham-Jones, 2000. On 12 May 1997 the foreign secretary Robin Cook launched a mission statement for New Labour's foreign policy. This essay asks whether New Labour have re-orientated the path of foreign policy from that established by the Conservatives.

New Labour's Women MPs Sarah Childs, 2004-07-31. It was not long after the election of a record number of women to the House of Commons in 1997 that the backlash began. The criticism was all encompassing: they wore the wrong clothes, they voted the wrong way, and they were concerned with the wrong issues. Above all, they were accused of failing to make difference to have failed women and were dismissed by some as Blair's Babes. Drawing on in-depth interviews with more than half of the new Labour women MPs, Sarah Childs reveals how these women actually experienced being MPs and explores whether they acted for and like women in their constituencies in parliament and in government. She presents important insights into theories of women's political representation, showing that the relationship between women's descriptive and substantive representation is complicated: that party and gender identities are crucial; that women's differences must be acknowledged; and that it might not always be possible for women representatives to act for women even if they want to. Including a key section on women's selection for parliament, whether women MPs act as role models, why it is important that women should be present in politics, as well as exploring in depth the subject of women's substantive representation, *New Labour's Women MPs* is essential reading for all those interested in women and politics, legislative studies, political behaviour, and representation.

Britain Needs Change Gerry Hassan, Simon Barrow, 2024-11-28. After fourteen years of Conservative government combined with Brexit, a global pandemic, the rise of a populist far right, and the existential threat of climate change, many see Britain as undergoing serious social, economic, and cultural decline. This is the context in which Labour have taken office at Westminster after a decade and a half in opposition. With recent ways of doing politics, government, and statecraft in crisis, how can a serious humane alternative emerge? What scale and type of change is coming?

and will it be for the better All this raises serious questions about the future of the UK and its constituent nations Labour's ability to govern progressively and the incoming government's confidence and capacity to take on the entrenched vested interests of present day Britain while also having an honest mature conversation with the public and its own supporters about the nature of these challenges In Britain Needs Change some of our best thinkers and commentators dissect the challenges facing the new government in a series of wide ranging penetrative essays Featuring contributions from Helena Kennedy John Curtice Mariana Mazzucato Neal Lawson Aditya Chakraborty Ann Pettifor Gavin Esler Hilary Cottam Sunder Katwala Savitri Hensman Fintan O Toole and Andrew Gamble among others this is required reading for anyone interested in the future of our country The New Age Arthur Moore,1929 **The Socialist Movement, 1824-1924: The new phase, 1914-1924** Arthur Shadwell,1925 *Labour's Economic Ideology Since 1900* Christopher Kirkland,2022-09-20 This book traces the economic ideology of the UK Labour Party from its origins to the current day Through its analysis the book emphasises key crises including the 1926 General Strike the 1931 Great Depression the 1979 Winter of Discontent and the 2007 2008 economic crisis In analysing this history the ideology of the Labour Party is examined through four core themes the party's definition of socialism the role of the state in economic decision making the party's understanding of inequalities and its relationship with the trade union movement The result is a systematic exploration of the drivers and key ideas behind the Labour Party's economic ideology In demonstrating how crises have affected the party's economic policy the book presents a historical analysis of the party's evolution since its formation and offers insights into how future changes may occur The New Statesman ,1914 The New Larned History for Ready Reference, Reading and Research Josephus Nelson Larned,1923 The Changing Labour Party Martin J. Smith,Joanna Spear,2018-12-07 First published in 1992 In the 1992 General Election the Labour Party presented a substantial changed programme to the electorate This book presents an analysis of the fundamental changes to Labour policy which occurred during the 1980s It examines in detail the ideological and political context of the Policy Review undertaken by the Party following its third consecutive electoral defeat in 1987 It also traces changes in Party organisation and analyses Party members views of the new policies **The Rise of New Labour** Anthony F. Heath,Roger M. Jowell,John K. Curtice,2001-04-05 This major new work from the well known team of Heath Jowell and Curtice explores the emergence of New Labour from the ruins of old Labour's four successive defeats at the hands of the Conservatives Based on the authoritative British Election Surveys the book explores some of the key questions about contemporary British elections and the social and political factors that decide their outcomes The book begins with the electoral legacy of Margaret Thatcher How far had Margaret Thatcher converted the electorate to her vision of a free market low tax society Did her electoral success prove the popularity of her policies Does any scope remain in Britain for left wing policies The Rise of New Labour explores the reasons for the failure of previous attempts by Labour under Michael Foot and Neil Kinnock to win the electorate's backing for left wing policies and dissects the electoral benefits of Tony Blair's

abandonment of socialism The research shows that policies play a much smaller role in electoral change than is usually supposed and that the parties may be less constrained than they imagine The book explores the key assumptions underlying New Labour s diagnosis of the problems the party faced during the eighteen years of Conservative rule It shows that many of these assumptions were at best half truths and that much of the conventional wisdom shared by politicians and commentators about how voters decide is seriously flawed The book concludes by putting forward a new model of electoral behaviour which is better able to account for the wide array of research findings **New Statesman and Nation** ,1914

New Statesman ,1927 **The Freeman** ,1920 *The New Hazell Annual and Almanack* ,1920 *The New Generation* ,1924 **Readers' Guide to Periodical Literature** ,1920 The Fortnightly ,1908
