The Ballade Helen Louise Cohen,1915 Undertakes the history of this verse form from its origins in romance lands through France and England Shows how the formal ballade became reduced to three stanzas with identical scheme and refrain Rondeaux, Virelais und Balladen: Texte Friedrich Gennrich,1921 **Rondeaux, Virelais und Balladen** Friedrich Gennrich,1921 **Dynamic Dichotomy** Catherine Attwood,1998 The principal concern of this book expounded in the first chapter is to chart the development of literary awareness amongst poets of the later Middle Ages whose marked stance of professional independence led them increasingly to distinguish between their implied literary selves and the first person speakers of their texts Four chapters examine by means of close stylistic analysis the implications of such detachment

taken as a model of binary opposition for the elaboration of the first person speaker Thus in the case of Machaut the essential distinction is between the first person and the second or third the I and the Other with Froissart between the I of the present and the I of the past with Deschamps between the internal I of the poet and a vast array of external personae with Christine de Pizan between the blueprint of a persona evolved by the poet for her internal I and the transformations implied by its imposition on external personae The final chapter on the poetics of debate explores the means by which the I may be divided in order to arrive at an objective knowledge of both its own nature and of external truths the ideal expression of which is the written record of the debate itself It is the primacy of the Book as an autonomous entity which ultimately exercises the most far reaching influence on the development of the poetic I in this period Rondeaux, virelais und balladen aus dem ende des XII., dem XIII, und dem ersten drittel des XIV, jahrhunderts mit den überlieferten melodien Friedrich Gennrich,1921
