Chant De Limmediat Satori

Philippe Coupey

Chant De Limmediat Satori:

In The Belly Of The Dragon Philippe Coupey, 2020-05-15 The Shinjinmei written in the 6th century by the monk Sosan is the first of Zen's four fundamental texts. Thus it is central to all Zen lineages and schools and an essential source of study for all Zen practitioners. Here Philippe Coupey, a contemporary practicing monk for over 45 years, reflects on each of the 73 verses of this famous text. Despite its ancient roots, the Shinjinmei is still dynamic today, and Coupey's commentaries are fresh and relevant to life in the 21st century. His remarks are not based on scholarly studies as for some well-known translators, but on the understanding transmitted through a lineage of practice, teaching, and commenting on the Shinjinmei by great teachers and masters of the traditions, including Coupey's own teacher Taisen Deshimaru, who brought this practice to Europe in 1967. Zen today is often co-opted by the dominant marketing paradigm with all types of products branded this way and loses its potency when it devolves into yet another form of relaxation. Not so here. Thanks to Philippe Coupey's frank style of speaking and writing like his teacher Deshimaru before him, Coupey reflects a raw, unreserved approach, more in keeping with the ancient masters. His commentaries are also more exhaustive and detailed than others published so far. People who are tired of self-development Zen books might find real answers and questions here. The underlying message of the Shinjinmei is to avoid clinging to the extremes, left and right, good and bad, love and hate. The opening stanza reads: Entering the Way is not difficult. But you must not love or hate or choose or reject. This clinging leads to the separation of one thing from another and is therefore the origin of many of the big problems in society today. The first half of this book, verses 1-31, originally published as volume one with the same title, *In the Belly of the Dragon*, were the result of eight years of teaching lectures, *kusen*, during which Coupey made oral commentary on the text. The remainder of the book, verses 32-73, was created more recently as written essays. The style of these presentations is less formal and more intimately represents the dynamic spirit of the author's practice. The entire collected work vivifies the ancient Zen text for modern students of the Way and is a valuable resource for all those interested in Eastern thought and religion.
