Food Chains Alvin Silverstein, Virginia B. Silverstein, Laura Silverstein Nunn, 1998 You've probably heard the saying You are what you eat. Of course you don't become a cow when you eat a hamburger but you do draw your energy from the energy in the food you consume. All organisms are linked together by the food chain which illustrates the transfer of energy from one organism to another. A bird gains strength from devouring a frog which may have eaten a fly which may have eaten rotten fruit. Science writers Alvin and Virginia Silverstein and Laura Silverstein Nunn describe the many sources of energy we often take for granted every time we eat. The authors also explore relationships in nature and what happens when a part of the food chain is affected by outside factors. Finally they offer ways we can protect each level of the food chain.
