**The Challenge of Cultural Pluralism** Stephen Brooks, 2002-10-30 Many believe that we are passing through a period during which due largely to globalization's challenge to the idea and sovereignty of nation states there is now the intellectual and political space for the construction of new models of citizenship involving new relations between individuals and their governments These new relations may be mediated through individuals' membership in communities that are recognized within states In various ways the resurgence of ethnic nationalism the rise of multiculturalism the ideas associated with communitarianism and the apparent erosion of national sovereignty have all contributed to the creation of this interest in new ways of conceptualizing citizenship and carrying out the tasks of governance Brooks and his colleagues examine various aspects of the challenge of cultural pluralism Together they cover a wide range of national cases theoretical issues and empirical research The collection is intended for all scholars students and researchers who have an interest in cultural pluralism consociationalism and inter community relations in societies divided by language ethnicity and culture

N'est-il pas d'autant plus difficile d'organiser durablement une solidarité générale au sein d'une population qu'elle est plus hétérogène culturellement et linguistiquement. Si c'est le cas les politiques dites multiculturelles sont-elles de nature adoucir cette tension ou au contraire l'exacerber. C'est autour de ces questions que Philippe Van Parijs a rassemblé des chercheurs de divers horizons mondialement réputés pour deux jours de discussion intense. Ethical Challenges of Authority in a Pluralistic Society  
 Josephat Okanumee Nwankwo, 1998 Pluralism is more than difference in behavioral patterns. It is a fundamental difference in worldviews and Nigeria typifies it. It implies that autonomous individuals within a societal continuum do not constitute an integral amalgamation of a body politic. A multi-cultural, multi-religious, multi-ethnic and multi-lingual blend. Nigeria serves as a good laboratory for pluralist test. What Nigeria needs is authority in order to articulate these plural and conflicting world views into a reasonable discourse or committed dialogue. It is then the challenge of authority in Nigeria to reconcile the apparent incompatibilities within the multiple groups into a reasonable consensus. Plagued with the pathological equivocations of human rights, incessant military coups and counter coups, vicious ethnic discrimination and lack of regard for meritocracy, Nigeria stands as a classical example of a leaderless society. Derided by foes as a political patchwork and portrayed by friends as a potential volcano, all that Nigeria needs is authority that can articulate her numerous but diversified potentials into a catalyst for human development. No sustainable political or social foundations could be laid in the absence of this desideratum.

**Educating About Social Issues in the 20th and 21st Centuries Vol 1** Samuel Totten, Jon Pedersen, 2012-04-01 Educating About Social Issues in the 20th and 21st Centuries: A Critical Annotated Bibliography is comprised of critical essays accompanied by annotated bibliographies on a host of programs, models, strategies and concerns vis-à-vis teaching and learning about social issues facing society. The primary goal of the book is to provide undergraduate and graduate students in the field of education, professors of education and teachers with a valuable resource as they engage in research and practice in relation to teaching about social issues. In the introductory essays, authors present an overview of their respective topics, e.g., The Hunt-Metcalf Model, Science, Technology, Science, Genocide, Education. In doing so, they address among other concerns the following key theories, goals, objectives and the research base. Many also provide a set of recommendations for adapting and/or strengthening a particular model, program or the study of a specific social issue. In the annotated bibliographies accompanying the essays, authors include those works that are considered classics and foundational. They also include research and practice-oriented articles. Due to space constraints, the annotated bibliographies generally offer a mere sampling of what is available on each approach, program, model or concern. The book is composed of twenty-two

*Groups and Group Rights* Christine T. Sistare, Larry May, Leslie Francis, 2001 In matters such as affirmative action or home schooling rights of ethnic and other minority groups often come into conflict with those of society in a culturally diverse population such as ours But before considering the dilemmas posed by these issues we must first ask such basic but important questions as what group rights are and how they intersect with the principles of democracy This new collection brings together some of today s leading thinkers from the cutting edge of these debates taking in a broad range of issues confronting philosophers sociologists and political scientists Contributors such as Carl Wellman Carol Gould and Rex Martin examine the nature of groups and the conflict between group rights and democracy and also consider case studies depicting current issues in cultural ethnic and religious rights The first section on the nature of groups examines some of the perplexing alternatives in the formulation of a theory of group rights These articles investigate the kinds of rights minorities might claim and ask when groups can be held responsible for the acts of some of their members The second section addresses the treatment of groups in a democracy and the precarious balance between indifference toward minorities and capitulation to their demands Here the contributors examine five principles for the sensitive treatment of minority and disadvantaged groups in a democratic society A final section explores specific conflicts between subgroup and societal claims through case studies dealing with affirmative action religious practice and the education of children and the land rights of indigenous peoples By drawing on the legal and political dilemmas related to these cases the authors confront issues of core versus peripheral interests of individual member versus subgroup rights and of the possibilities for social openness raised in the preceding sections Written from varied perspectives *Groups and Group Rights* offers stimulating reading for both students and professionals as it takes on some of

the most pressing dilemmas confronting our society
