Teaching Young Children: Choices In Theory And Practice Mac Naughton, Glenda, Williams, Gillian, 2008-11-01 This book presents early childhood students and staff with a broad and diverse range of teaching techniques to support children's learning. It examines 26 techniques ranging from simple ones such as describing and listening to more complex methods such as deconstruction and scaffolding. The strategies selected are derived from the best current research knowledge about how young children learn. A detailed evaluation of each strategy enables childcare staff, early childhood teachers and students to expand their repertoire of teaching strategies and to critically evaluate their own teaching in early childhood settings. Vignettes and examples show how early childhood staff use the techniques to support children's learning and help to bring the discussion of each technique to life. Revised and updated in light of the latest research, new features include Coverage of the phonics debate, Addition of ICT content, Questions for further discussion, Revision to the chapter on problem solving, Updated referencing throughout. **Teaching Young Children** is key reading for students and experienced early childhood staff working in diverse settings with young children.

Supporting Young Children with Communication Problems Myra Kersner, Jannet A. Wright, 2015-04-24 Now in its fourth edition, formerly published as *How to Manage Communication Problems in Young Children*, this invaluable guide to understanding and helping children whose speech and/or language is delayed or impaired has been completely revised and updated and provides readers with Practical advice on how to recognise communication problems, Strategies for supporting children with speech language and communication needs, Best practice guide for parents and professionals working in partnership, Contributions from a wide range of specialist speech and language therapists. Reflecting new developments and current practice, this book is of interest to parents, early years practitioners, students in education and speech and language therapy and anyone interested in pursuing a career with young children in the foundation years. Written in an accessible style, it assumes no prior knowledge and includes a range of practical suggestions for dealing with children with all kinds of communication difficulties.

Problem Solving with Young Children Ann Gadzikowski, 2022-10-04 Whether it's building a rocket, learning to take turns or forgetting a teaching material at home, both children and adults learn more from our mistakes than from our successes. Help children find solutions and learn to problem solve using teachable moments. Young children encounter problems, mistakes and accidents that challenge them daily. Helping children conquer everyday frustrations fosters the creativity, critical thinking and resilience that enables children to thrive in a formidable world. The ultimate guide to thinking on your feet. **Problem Solving with Young Children** will coach early childhood teachers, child care providers and parents to develop a range of strategies to help young children become creative problem solvers, including Questions to ask, Ways to listen, Strategies for brainstorming and trying solutions.
