Challenging Subjects Critical Psychology For A New Millennium:

Challenging Subjects Valerie Walkerdine, 2002-01-01 How can we develop a politics and theory of subjectivity suitable for the 21st century What place does an account of subjectivity have within the development of critical psychology today Authors from a range of disciplines explore the themes of politics migration population movement culture and spirituality to examine how we might find new ways to think about the human subject in the new millennium The chapters are diverse in terms of approach theoretical orientation and subject matter What joins them together is an engagement with pressing social cultural and political issues and an innovative approach to the issues of subjectivity contained within them From the legacies of fascism to the politics of Northern Ireland from anti road protesters to the new physics this title takes a challenging look at what forms of human subjectivity will look like and how we might study them Handbook of Critical Psychology Ian Parker, 2015-04-17 Choice Recommended Read Critical psychology has developed over time from different standpoints and in different cultural contexts embracing a variety of perspectives This cutting edge and comprehensive handbook values and reflects this diversity of approaches to critical psychology today providing a definitive state of the art account of the field and an opening to the lines of argument that will take it forward in the years to come The individual chapters by leading and emerging scholars plot the development of a critical perspective on different elements of the host discipline of psychology The book begins by systematically addressing each separate specialist area of psychology before going on to consider how aspects of critical psychology transcend the divisions that mark the discipline The final part of the volume explores the variety of cultural and political standpoints that have made critical psychology such a vibrant contested terrain of debate The Handbook of Critical Psychology represents a key resource for researchers and practitioners across all relevant disciplines It will be of particular interest to students and researchers in psychology psychosocial studies sociology social anthropology and cultural studies and to discourse analysts of different traditions including those in critical linguistics and political theory

Critical Social Psychology of Social Class Katy Day, Bridgette Rickett, Maxine Woolhouse, 2020-10-12 This book argues for the importance of considering social class in critical psychological enquiry It provides a historical overview of psychological research and theorising on social class and socio economic status before examining the ways in which psychology has contributed to the surveillance regulation and pathologisation of the working class Other The authors highlight the cost of recent austerity policies on mental health and warn against the implementation of further austerity measures in the current climate The book pulls together perspectives from critical social psychology feminist psychology sociology and other critical research which examines the discursive production of social class classism and classed identities The authors explore social class in educational and occupational settings and analyse the intersections between class and other social categories such as gender race ethnicity and sexuality Finally they consider key issues in debates around social class in the broader social sciences such as the limitations of approaches informed by poststructuralist theory This book will

be a useful resource for both academics and students studying class from a critical perspective The Subject of Childhood Michael O'Loughlin, 2009 The Subject of Childhood is a collection of essays on early childhood education childhood studies that brings critical psychological psychoanalytic and cultural studies perspectives to bear on understanding the lives children live Central concerns running through these essays are the emergence of subjectivity in the child the complexity of conceptualizing the relationship between external cultural and social forces and the internal sense of agency that we know that each child possesses Together the volume is a blending of interdisciplinary theoretical writing personal autobiographical inquiry and concrete examples from the author's work with teachers in schools and from his clinical practice as a child psychoanalyst Written for advanced undergraduate and graduate students and professionals across the English speaking world in early childhood education childhood education educational foundations and cultural studies in education this book functions as a core text for advanced undergraduate and graduate courses in child development child psychology sociology of education childhood studies and early childhood education **The Politics of Recognition and Social Justice** Maria Pallotta-Chiarolli, Bob Pease, 2013-11-07 Via a wide range of case studies this book examines new forms of resistance to social injustices in contemporary Western societies Resistance requires agency and agency is grounded in notions of the subject and subjectivity How do people make sense of their subjectivity as they are constructed and reconstructed within relations of power What kinds of subjectivities are needed to struggle against forms of dominance and claim recognition The participants in the case studies are challenging forms of dominance and subordination grounded in class race culture nationality sexuality religion age disability and other forms of social division It is a premise of this book that new and or reconstructed forms of subjectivity are required to challenge social relations of subordination and domination Thus the transformation of subjectivity as well as the restructuring of oppressive power relations is necessary to achieve social justice By examining the construction of subjectivity of particular groups through an intersectional lens the book aims to contribute to theoretical accounts of how subjects are constituted and how they can develop a critical distance from their positioning *Anti-Semitism at the Limit* Benjamin B. Strosberg, 2024-10-21 In this book Benjamin Strosberg explores difficulties and anxieties inherent in studying defining and defending against anti-Semitism by tracing a concurrent difficulty in thinking about Jewishness which has historically served as a limit case for central social categories such as outsider religion race gender and nation Dr Strosberg draws on Zygmunt Bauman's concept of proteophobia the anxious fear of what doesn't fit into clear cut categories to think more carefully about anti-Semitism as response to the complex realities of ambivalence and otherness The book proposes negative psychology as a methodology for studying anti-Semitism and proteophobia rooted in psychoanalysis and Theodor Adorno's Critical Theory Drawing from lived experiences contemporary events and debates in the field this compelling work explores the broad implications of the investigation of anti-Semitism for politics education and psychoanalysis as well as the specific implications for Jewish identity and resistance **Imagining Children Otherwise** Michael O'Loughlin, Richard T.

Johnson,2010 This collection of articles is a sociolinguistic response to the recent explosion of scholarly interest in issues of identity Identity is central to all human beings as we are all concerned with how to conceive of ourselves present ourselves and comprehend our relationships with others The book tackles the problem of how personal identity is made visible and intelligible to others through language and how this may be constrained Part One Emblematic identities focuses on the construction of self definitions based on various forms of group identities including national and ethnic ones Part Two Multicultural Identities looks at negotiation of identities in multicultural contexts involving relations of power drawing on examples from Europe and the Americas Finally Part Three Emergent Identities collects empirical studies based on a close reading of texts in which identities are being articulated and negotiated

Rethinking Disability, Care, and Motherhood Priyasha Choudhary,Shubha Ranganathan,2025-08-22 This book focuses on the lived realities of disabled mothers to examine how they navigate their multiple competing responsibilities and identities It reimagines normative constructions of motherhood dependency and care while rethinking advocacy and resistance in the context of disability gender and mental health It essentially argues that disabled women negotiate a delicate balancing act they constantly work at proving their competence even as they push the boundaries of normative femininity The book is grounded in qualitative research on disabled mothers In these conversations disabled mothers described various aspects of their motherhood journey ranging from their interactions with society to their daily experiences within the household Drawing from critical disability studies critical psychology care theory and feminist scholarship this interdisciplinary volume elaborates on the everyday situations that disabled mothers encounter and the strategies they engage in to provide care for their children This book will be relevant for students and scholars in disability studies psychology gender studies development studies medical anthropology and sociology and medical humanities among others Further the use of case studies makes it an essential read for practitioners and policymakers Recognising the political significance of plain language in disability studies the book s accessible language will appeal to academic lay and practitioner audiences
