*The Chambered Cairns of Sutherland* Audrey S. Henshall, James Neil Graham Ritchie, 1995 This third volume in the survey of Scotland's chambered cairns focuses on Sutherland an area in the remote North West of Britain *Neolithic Scotland* Gordon Noble, 2006-06-19 This is an account of the Neolithic period in Scotland from its earliest traces around 4000 BC to the transformation of Neolithic society in the Early Bronze Age fifteen hundred years later Gordon Noble interprets Scottish material in the context of debates and issues in European archaeology comparing sites and practices identified in Scotland to those found elsewhere in Britain and beyond He considers the nature and effects of memory sea and land travel ritualisation island identities mortuary practice symbolism and environmental impact He synthesises excavations and research conducted over the last century and more bringing together the evidence for understanding what happened in Scotland during this long period His long term and regionally based analysis suggests new directions for the interpretation of the Neolithic more generally After outlining the chronology of the Neolithic in Europe Dr Noble considers its origins in Scotland He investigates why the Earlier Neolithic in Scotland is characterised by regionally distinct monumental traditions and asks if these reflect different conceptions of the world He uses a long term perspective to explain the nature of monumental landscapes in the Later Neolithic and considers whether Neolithic society as a whole might have been created and maintained through interactions at places where large scale monuments were built He ends by considering how the Neolithic was transformed in the Early Bronze Age through the manipulation of the material remains of the past Neolithic Scotland provides a comprehensive approachable and up to date account of the Scottish Neolithic Such a book has not been available for many years It will be widely welcomed *Neolithic of Mainland Scotland* Kenneth Brophy, 2016-03-16 Archaeologists show us how the Neolithic human lived in mainland Scotland What was life like in Scotland between 4000 and 2000BC Where were people living How did they treat their dead Why did they spend so much time building extravagant ritual monuments What was special about the relationship people had with trees and holes in the ground What can we say about how people lived in the Neolithic and early Bronze Age of mainland Scotland where much of the evidence we have lies beneath the ploughsoil or survives as slumped banks and ditches or ruinous megaliths Each contribution to this volume presents fresh research and radical new interpretations of the pits postholes ditches rubbish dumps human remains and broken potsherds left behind by our Neolithic forebears From the APF What was life like in Scotland between 4000 and 2000BC Where were people living How did they treat their dead Why did they spend so much time building extravagant ritual monuments What was special about the relationship people had with trees Why was so much time and effort spent digging holes and filling them back up again What can we say about how people lived in the Neolithic and early Bronze Age of mainland Scotland where much of the evidence we have lies beneath the plough soil or survives as slumped banks and filled ditches or ruinous megaliths This book will draw together leading experts and young researchers to present fresh

research and outline radical new interpretations of the pits postholes ditches rubbish dumps human remains and broken potsherds left behind by our Neolithic forebears Much of this evidence has come to light in the past few decades putting the emphasis very much lowland mainland Scotland as opposed to more famous Orcadian Neolithic sites Inspired by the work of Gordon Barclay the leading scholars of Scotland s Neolithic in the last 40 years the chapters in this book offer a wide ranging analysis of the evidence we have for the first farmers in Scotland **The History of British Birds** Derek Yalden,Umberto Albarella,2009 This authoritative reference work will be of particular relevance to students and researchers in the fields of archaeology and avian biology as well as a broader audience of general ornithologists and natural historians BOOK JACKET
