## **Chamfort And The French Revolution A Study In Form And Ideology:**

**Chamfort and the Revolution** David McCallam, 2002 S bastien Roch Nicolas Chamfort remains one of the most enigmatic prompters of the French Revolution This study analyses his rhetorical and political programmes in tandem to reveal how Chamfort s discourse and politics inform and elucidate one another in both pre revolutionary and revolutionary periods It considers his key political texts his Discours l Acad mie fran aise Des acad mies the Tableaux historiques de la R volution fran aise and his posthumous Maximes et pens es caract res et anecdotes and exposes how in each instance Chamfort s conception of politics hinges on the adoption and subversion of prescribed discursive forms reception speech historical tableau maxim In the Discours and Des acad mies Chamfort opposes the implicit discursive norm of le bon usage sanctioned by the Acad mie fran aise because it represses free expression and at the same time constitutes the Acad mie itself into an oppressive corporation imbued with neo feudal values Chamfort s subsequent interpretations of revolutionary events in his Tableaux historiques while making explicit this same radical libertarianism frame some reservations about the insurgent people as a political force In the end many of the tensions troubling Chamfort s politics are resolved by his posthumous Maximes et pens es whose prevailing principle of honn tet gives them a rhetorical and political independence from both the ancien r gime centred on notions of honneur and the revolutionary Republic founded on a principle of vertu Previous studies have tended either to interpret Chamfort s works from their historical or biographical context or by considering exclusively the Maximes et pens es to subordinate them to an established literary tradition This innovative reading posits Chamfort s texts as an exemplary meeting place of literary practice and political praxis at the time of the Revolution shedding new light on both the function of literary forms in Chamfort s politics and the role of Chamfort the writer as an ideological subject caught up in revolutionary events *The Politics of the Provisional* Richard Taws, 2015-09-22 In revolutionary France the life of things could not be assured War shortage of materials and frequent changes in political authority meant that few large scale artworks or permanent monuments to the Revolution s memory were completed On the contrary visual practice in revolutionary France was characterized by the production and circulation of a range of transitional provisional ephemeral and half made images and objects from printed paper money passports and almanacs to temporary festival installations and relics of the demolished Bastille Addressing this mass of images conventionally ignored in art history *The Politics of the Provisional* contends that they were at the heart of debates on the nature of political authenticity and historical memory during the French Revolution Thinking about material durability this book suggests was one of the key ways in which revolutionaries conceptualized duration and it was crucial to how they imagined the Revolution s transformative role in history *The Politics of the Provisional* is the first book in the Art History Publication Initiative AHPI a collaborative grant from the Andrew W Mellon Foundation Thanks to the AHPI grant this book is available on a variety of popular e book platforms **The Meaning of Ideology** Michael Freeden, 2013-10-18 This is the first collection to bring

together leading scholars from diverse disciplines to offer a variety of perspectives on ideology and its analysis emphasizing the input of different intellectual and scholarly traditions to the meaning of ideology The articles explore commonalities in the use and understanding of ideology as well as delineating constructive differences in its interpretation while illuminating the changes that the concept of ideology as well as the practices it signifies has undergone in recent years Contributions are included from the fields of political theory history literature political science cultural studies post Marxism discourse analysis language studies law and sociology The Meaning of Ideology advances our understanding of the intricacy and relevance of ideology and offers the latest theories and insights that currently inform scholarship on the subject Ideology emerges through the pages of this collection more strongly than ever as a major tool of understanding political language and as a durable and normal phenomenon that is inherent in the many ways we conceive the world around us This book was previously published as a special issue of The Journal of Political Ideologies and will be of interest to students of political ideologies and political and social theory

*The Enterprise of Enlightenment* Terry Pratt, David McCallam, 2004 Published on the occasion of his retirement in honour of his outstanding contribution to French Enlightenment studies this volume explores those areas of research in which David Williams has excelled and continues to excel literary criticism particularly Voltaire the history of ideas women and Enlightenment colonial practices and revolutionary politics It brings together a collection of essays from some of the most prestigious international names in the field and tackles subjects which expose in all their splendid diversity the enterprise both innovation and undertaking of the Si cle des Lumi res

**The Unpublished Correspondence of Mme de Genlis and Margaret Chinnery** Denise Yim, 2003 This fascinating correspondence between Mme de Genlis and her English admirer Margaret Chinnery was discovered at a private art gallery in London in 1996 Margaret Chinnery was an intelligent wealthy mother of three who educated her own children and the letters offer proof that she implemented Mme de Genlis s method as expounded in the latter s novel Ad le et Th odore The correspondence documents a warm friendship which began in 1802 and which came to crisis point as did so many of Mme de Genlis s friendships with the publication of her M moires in 1825 Approximately half the letters to Margaret Chinnery date from 1802 when the Chinnery family and the de facto family member the violinist G B Viotti came to Paris during the Peace of Amiens Most of the others date from 1807 when Mme de Genlis sent her adopted son Casimir Baecker to London in an attempt to repeat the successes of his Paris harp concerts The forty letters from Mme de Genlis are extraordinarily candid in their description of her daily activities her financial situation

and her hopes and disappointments They reveal an emotionally fragile driven woman almost pitiable in her obsession to promote her favourite pupil Casimir The letters provide valuable information on Mme de Genlis's educational works her novels and on her periodical contributions that were in progress at the time of writing as well as on many of her other manuscripts Some of the letters describe her attempts through the Chinnery family and Viotti to sell her manuscripts in England Because copies of Margaret Chinnery's letters have been preserved the subjects treated in the letters are not only contextualised but are given continuity and coherence In addition over twenty two related letters and documents provide an elucidating backdrop to the main body of the correspondence This is the only known correspondence that documents a friendship between Mme de Genlis and an English woman and the completeness of its preservation makes it a valuable resource indeed
