Chan Buddhism Dimensions Of Asian Spirituality:

Chan Buddhism Peter D. Hershock, 2004-09-30 Chan Buddhism has become paradigmatic of Buddhist spirituality Known in Japan as Zen and in Korea as Son it is one of the most strikingly iconoclastic spiritual traditions in the world This succinct and lively work clearly expresses the meaning of Chan as it developed in China more than a thousand years ago and provides useful insights into the distinctive aims and forms of practice associated with the tradition including its emphasis on the unity of wisdom and practice the reality of sudden awakening the importance of meditation the use of shock tactics the centrality of the teacher student relationship and the celebration of enlightenment narratives or koans Unlike many scholarly studies which offer detailed perspectives on historical development or guides for personal practice written by contemporary Buddhist teachers this volume takes a middle path between these two approaches weaving together both history and insight to convey to the general reader the conditions energy and creativity that characterize Chan Following a survey of the birth and development of Chan its practices and spirituality are fleshed out through stories and teachings drawn from the lives of four masters Bodhidharma Huineng Mazu and Linji Finally the meaning of Chan as a living spiritual tradition is addressed through a philosophical reading of its practice as the realization of wisdom attentive mastery and moral clarity **The Golden Road** William Dalrymple, 2024-09-05 THE INSTANT SUNDAY TIMES BESTSELLER A Waterstones and TIMES HISTORY BOOK OF THE YEAR A SPECTATOR and History Today BOOK OF THE YEAR A revolutionary new history of the diffusion of Indian ideas from the award winning bestselling author and co host of the chart topping Empire podcast Richly woven highly readable Written with passion and verve Spectator Dazzling Not just a historical study but also a love letter Guardian An outstanding new account The most compelling retelling we have had for generations Financial Times India is the forgotten heart of the ancient world For a millennium and a half India was a confident exporter of its diverse civilisation creating around it a vast empire of ideas Indian art religions technology astronomy music dance literature mathematics and mythology blazed a trail across the world along a Golden Road that stretched from the Red Sea to the Pacific William Dalrymple draws from a lifetime of scholarship to highlight India's oft forgotten position as the heart of ancient Eurasia For the first time he gives a name to this spread of Indian ideas that transformed the world From the largest Hindu temple in the world at Angkor Wat to the Buddhism of China from the trade that helped fund the Roman Empire to the creation of the numerals we use today including zero India transformed the culture and technology of its ancient world and our world today as we know it Praise for William Dalrymple and The Anarchy A superb historian with a visceral understanding of India The Times Magnificently readable deeply researched and richly atmospheric Francis Wheen Mail on Sunday **India, China, and the World** Tansen Sen, 2017-09-15 This pathbreaking study provides the first comprehensive examination of India China interactions in the broader contexts of Asian and world history By focusing on material exchanges transmissions of knowledge and technologies networks of exchange during the colonial period and little known facets of interactions between

the Republic of India and the People's Republic of China Tansen Sen argues convincingly that the analysis of India China connections must extend beyond the traditional frameworks of nation states or bilateralism Instead he demonstrates that a wide canvas of space people objects and timeframe is needed to fully comprehend the interactions between India and China in the past and during the contemporary period Considering as well the contributions of people and groups from beyond India and China Sen also explores the interactions between Indians and Chinese outside the Asian continent The author's formidable array of sources pulled from archives and libraries around the world range from Chinese travel accounts to Indian intelligence reports Examining the connected histories of the two regions Sen fills a striking gap in the study of India and China in a global setting The Virginia Review of Asian Studies ,2006 Journal of Chinese Religions ,2014

Bibliographie de la philosophie International Institute of Philosophy,2004 **Zen Koans** Steven Heine,2014-09-30 Koans such as What is the sound of one hand clapping and Does a dog have Buddha nature are concise confusing and often contradictory sayings expressed by ancient masters that serve as the centerpiece of Zen Buddhist learning and training on several levels First Koans form the central component of a remarkable body of literature contained in voluminous collections produced in the twelfth and thirteenth centuries These works include various styles of elegant poetic and eloquent prose commentaries on cryptic dialogues The Koan compilations were greatly influenced by one of the high points in the distinguished history of the literary tradition in East Asia The texts appealed to intellectuals in China Japan and Korea who sought spiritual fulfillment through interpreting elaborate rhetoric related to mysterious metaphysical exchanges

Buddhist Masculinities Megan Bryson,Kevin Buckelew,2023-09-05 While early Buddhists hailed their religion's founder for opening a path to enlightenment they also exalted him as the paragon of masculinity According to Buddhist scriptures the Buddha's body boasts thirty two physical features including lionlike jaws thighs like a royal stag broad shoulders and a deep resonant voice that distinguish him from ordinary men As Buddhism spread throughout Asia and around the world the Buddha remained an exemplary man but Buddhists in other times and places developed their own understandings of what it meant to be masculine This transdisciplinary book brings together essays that explore the variety and diversity of Buddhist masculinities from early India to the contemporary United States and from bodhisattva kings to martial monks Buddhist Masculinities adopts the methods of religious studies anthropology art history textual historical studies and cultural studies to explore texts images films media and embodiments of masculinity across the Buddhist world past and present It turns scholarly attention to normative forms of masculinity that usually go unmarked and unstudied precisely because they are normal illuminating the religious and cultural processes that construct Buddhist masculinities Engaging with contemporary issues of gender identity intersectionality and sexual ethics Buddhist Masculinities ushers in a new era for the study of Buddhism and gender **China Review International** ,2008 **Chinese Literature, Essays, Articles, Reviews** ,2006 **American Book Publishing Record** ,2003 **The Global Business Environment** Janet Morrison,2023-03-09 This

text challenges students to think critically about global issues that affect the business environment and provides them with a wealth of pedagogical features that help cement learning Its coverage includes the economic political social legal cultural technological and financial environments The book is truly global in coverage with case studies and examples from all over the world including Afghanistan China Sweden and Thailand It also has a strong focus on ethics responsibilities and sustainability and what this means for business organizations Janet Morrison s writing style makes difficult concepts easy to understand and its clarity makes it suitable for students with English as a second language New to this edition The theme of uncertainty in global contexts examining how best to assess and confront the challenges of uncertainties and risks in the differing dimensions of the business environment A chapter on the worldwide pandemic and the global business environment Increased coverage of FDI industrial policy and global communication New coverage relating to race relations and decolonising the curriculum 10 new cases making a total of 52 cases with all other cases fully updated A brand new decision making feature linked to some of the cases studies **The British National Bibliography** Arthur James Wells,2005
