Changes in Income Inequality Within U.S. Metropolitan Areas Janice Fanning Madden, 2000 Based on data from the 5 percent Public Use Micro Samples of the 1980 and 1990 U S censuses discusses the effect of demography the labour market and the geographic structure of a metropolitan area on changes in income inequality **Financing Economic**

**Development in the 21st Century** Sammis B. White, Zenia Z. Kotval, 2014-12-18 The fully revised new edition of this textbook presents a well balanced set of economic development financing tools and techniques focused on our current times of economic austerity While traditional public sector techniques are evaluated and refocused this volume emphasizes the role of the private sector and the increasing need to bring together different techniques and sources to create a workable financial development package The chapters address critical assessments of various methods as well as practical advice on how to implement these techniques New chapters on entrepreneurship the changing nature of the community banking system and the increasing need for partnerships provides critical insights into the ever evolving practice of economic development finance *The Geography of American Poverty* Mark D. Partridge, Dan S. Rickman, 2006 This book explores the spatial dimension of U S poverty stressing differences across states metropolitan areas and counties with an eye toward state and local policy prescriptions *Journal of Economic Literature* ,2007 Diversity and Disparities John Logan, 2014-11-01

The United States is more diverse than ever before Increased immigration has added to a vibrant cultural fabric and women and minorities have made significant strides in overcoming overt discrimination At the same time economic inequality has increased significantly in recent decades and the Great Recession substantially weakened the economic standing not only of the poor but also of the middle class Diversity and Disparities edited by sociologist John Logan assembles impressive new studies that interpret the social and economic changes in the United States over the last decade The authors leading social scientists from many disciplines analyze changes in the labor market family structure immigration and race They find that while America has grown more diverse the opportunities available to disadvantaged groups have become more unequal Drawing on detailed data from the decennial census the American Community Survey and other sources the authors chart the growing diversity and the deepening disparities among different groups in the United States Harry J Holzer and Marek Hlavac document that although the economy always rises and falls over the business cycle the Great Recession of 2007 2009 was a catastrophic event that saw record levels of unemployment especially among less educated workers young people and minorities Emily Rosenbaum shows how the Great Recession amplified disparities in access to home ownership and demonstrates that young adults especially African Americans are falling behind previous cohorts not only in home ownership and wealth but even in starting their own families and households Sean F Reardon and Kendra Bischoff explore the rise of class segregation as higher income Americans are moving away from others into separate and privileged neighborhoods and communities Immigration has also seen class polarization with an increase in both highly skilled workers and undocumented

immigrants As Frank D Bean and his colleagues show the lack of a path to legal status for undocumented immigrants inhibits the educational and economic opportunities for their children and grandchildren Barrett Lee and colleagues demonstrate that the nation and most cities and towns are becoming more diverse by race and ethnicity However while black white segregation is slowly falling Hispanics and Asians remain as segregated today as they were in 1980 Diversity and Disparities raises concerns about the extent of socioeconomic immobility in the United States today This volume provides valuable information for policymakers journalists and researchers seeking to understand the current state of the nation
