Changes In Statehood The Transformation Of International Relations:

Changes in Statehood G. Sørensen, 2001-09-05 This study of international relations is often cut off from the study of domestic affairs but this insulation of the international from the domestic is wrong International forces profoundly influence the core structures of sovereign statehood including their political military economic and normative substance Conversely the very nature of international relations is determined by the internal structure of states In an important contribution to the debate Georg Sørensen puts forward an original analysis of this critical interplay between internal and external forces He explores the development and change of the sovereign state and offers a new agenda for the study of international relations *Changes in Statehood* will be essential reading for students and researchers in international relations political science and security

Changes in Statehood : The Transformation of International Relations Georg Sørensen, 2001 **Changes in Statehood** Georg Sørensen, 2001 **Institutional Change and the International Criminal Court** Cenap

Çakmak, 2021-09-12 This book explores the dynamics and trajectories of change in international politics through an English School analysis of primary institutions including international law sovereignty and diplomacy with particular reference to the creation of the International Criminal Court ICC The study argues that it serves as an important indicator and model for redefining international politics particularly through its impact upon three major institutions as prescribed by the English School international law sovereignty and diplomacy The author explores three major areas the ICC's contribution to the consolidation of the individual as a subject of the international law the significance of the Court and its jurisdiction in terms of the state sovereignty and the strong and determinative role of non state actors active on global level during the diplomatic process upheld for the making of the norms and rules during the creation of the ICC These three fields of change point out to the redefinition and reconstruction of international politics heralding a solidarist vision of international society The book will be of particular interest to researchers in the field of the IR as well as graduate students interested in IR theory international law and international organizations

Rethinking the Green State Karin Bäckstrand, Annica Kronsell, 2015-06-12 This innovative book is one of the first to conduct a systematic comprehensive analysis of the ideals and practices of the evolving green state It draws on elements of political theory feminist theory post structuralism governance and institutional theory to conceptualise the green state and advances thinking on how to understand its emergence in the context of climate and sustainability transitions Focusing on the state as an actor in environmental climate and sustainability politics the book explores different principles guiding the emergence of the green state and examines the performance of states and institutional responses to the sustainable and climate transitions in the European and Nordic context in particular The book's unique focus on the Nordic countries underlines the important to learn from Nordics which are perceived to be in the forefront of climate and sustainability governance as well as historically strong welfare states With chapter contributions from leading international scholars in political science sociology economics energy and environmental systems and climate

policy studies this book will be of great value to postgraduate students and researchers working on sustainability transitions environmental politics and governance and those with an area studies focus on the Nordic countries *International Politics on the World Stage* John T. Rourke, 2005 This concise text provides students and instructors with a comprehensive overview of world politics inviting them in a straightforward and accessible way to explore international relations and its new challenges A hallmark of the text is the authors position that politics affect the lives of all of us and that the individual can have an impact whether small or large by being politically aware and by taking action *The Cartographic State* Jordan Branch, 2014 This book describes the emergence of the territorial state and examines the role that cartography has played in shaping its linear boundaries *Understanding International Conflicts* Joseph S. Nye, 2003 New discussions and updates pertaining to the September 11th terrorist attacks on New York City and Washington DC throughout the book but especially in the Preface Chapter 1 Chapter 7 and Chapter 9 Substantial updates to the Middle East discussion and more on ethnic conflict in Chapter 6 The former Chapter 7 has been divided into two new chapters Chapter 7 Interdependence and Globalization and Chapter 8 The Information Age The chapter has been divided so adequate space can be devoted to the coverage of important new developments in the areas of technology and the global economy New material on the revolution in military affairs in Chapters 6 and 7 Greatly expanded and updated discussions of economic globalization in Chapter 7 The conclusion to the book the new Chapter 9 has been substantially rewritten in light of the September 11 2001 terrorist attacks on the U S An abundance of examples help to illustrate concepts making the material clear and easy to understand Chronologies at the end of each chapter provide a detailed timeline of a particular conflict helping students to understand causation and put events in context Study Questions *Troubled Regions and Failing States* Kristian Berg Harpviken, 2010-07-07 Is the phenomenon of state failure better understood through a focus on the regional context To what extent may studies of regional security benefit from a focus on the capacities and vulnerabilities of the states involved This title addresses these questions **Journal of Mediterranean Studies** , 2004 *Review of International Studies* , 2005 *American Foreign Policy* G. John Ikenberry, 2005 This text provides an overview of the major contending theories that shape U S foreign policy It contains selections written by leading scholars in U S foreign policy and international relations The essays provide representative statements of the major contending explanations of U S foreign policy and encourage readers to evaluate the issues that shape our foreign policy today Back cover *Journal of Peace Research* , 2002 **The New Public Finance** Inge Kaul, Pedro Conceição, 2006 Published for The United Nations Development Programme **Forum for Development Studies** , 2006 **Sustainable Development and Global Ethics** Carl-Henric Grenholm, Normunds Kamergrauzis, 2007 *Comparative Politics* Daniele Caramani, 2014 This exciting and authoritative introduction to comparative politics provides a range of perspectives methods and theories at the heart of political systems around the world Alongside explanations of the most important themes students are presented with a wealth of empirical

data to demonstrate similarities and differences in practice and to encourage research This new edition takes account of the latest developments in the wake of democratic uprisings in North Africa and the Middle East and sees a much stronger emphasis on the financial crisis paying particular attention to state finances and stressing the effects of the crisis on political attitudes and forms of participation

The Transformation of the State Georg Sørensen, 2004-03-04 Recent years have seen a range of theoretical challenges to traditional notions of state sovereignty and a burgeoning debate about the power of the state in the face of globalization and new forms of governance In this important new text Georg Sørensen provides a systematic assessment of the contemporary state steering a middle course between those who argue the state is in retreat and their critics In so doing he sheds new light on just what is actually changing in the nature of sovereign statehood on changes in the relative power of different states and on the changing relationship between the domestic and external aspects of state power

States, Markets, and Just Growth Atul Kohli, Chung-in Moon, Georg Sørensen, 2003 This publication considers common concerns of developing countries in the search for sustainable development and growth such as globalisation democracy poverty and inequality while also emphasising special regional needs It contains a number of papers which discuss four key shared concerns to what extent should states intervene in the market in order to promote growth how much emphasis should development strategies put on deliberate redistribution and or poverty alleviation the impact of globalisation on developing countries in choosing their development paths and whether democracies are able to reconcile economic growth with distribution
