Changing Shades Of Orange And Green Redefining The Union And Nation In:

Changing Shades of Orange and Green John Coakley, 2002 Change has been especially marked in the constitutional nationalist tradition within Northern Ireland which is examined from different perspectives by Alban Maginess and Jennifer Todd It has been even more pronounced in the republican tradition however which is discussed from the standpoints of politician and academic commentator by Mitchel McLaughlin and Paul Arthur Two strands of unionism are analysed using the same formula Thus Dermot Nesbit and Richard English focus on the complex and fascinating pattern of change within Ulster unionism Then the even more remarkable shift in direction within militant loyalism is assessed by one of its main architects David Ervine and by academic analyst James McAuley Finally Desmond O Malley and Tom Garvin examine the pattern of change in the south **Peace and Ethnic Identity in Northern Ireland** Henry Jarrett, 2017-10-16 Consociational power sharing is often perceived to be the method of conflict management that is most likely to succeed in deeply divided societies The case of Northern Ireland in particular is heralded by many as a consociational success story Since the signing of the Good Friday Belfast Agreement in 1998 significant conflict transformation has taken place in the form of a considerable reduction in levels of violence and the establishment of power sharing between unionists and nationalists This book looks at what consociational power sharing achieves after its implementation specifically whether it can work to overcome existing identities in divided societies or whether it simply freezes divisions It argues that if consociational power sharing is facilitating a move towards a genuinely shared society this would be demonstrated in the focus of the election campaigns of Northern Ireland's political parties which would be almost exclusively based around socio economic issues affecting the whole population rather than narrow single identity concerns However the book claims that on the whole this has not been realised Although election campaigns are today less strident than they were in the pre 1998 era it remains the case that they usually foreground single identity symbolism as it is this that resonates with voters Whilst consociational power sharing has been very successful in reducing levels of violent conflict and facilitating elite level cooperation between unionists and nationalists it has been much less successful in reducing divisions within wider society to facilitate a genuinely shared Northern Irish identity By establishing an important middle ground between consociational proponents and critics this research will be of significant interest to students and scholars of ethnic politics political sociology conflict management and divided societies more generally Politics in the Republic of Ireland John Coakley, Michael Gallagher, 2010 Politics in the Republic of Ireland is now available in a fully revised fifth edition Building on the success of the previous four editions it continues to provide an authoritative introduction to all aspects of politics in the Republic of Ireland Written by some of the foremost experts on Irish politics it explains analyzes and interprets the background to Irish government and contemporary political processes Bringing students up to date with the very latest developments Coakley and Gallagher combine real substance with a highly readable style providing an accessible textbook

that meets the needs of all those who are interested in knowing how politics and government operate in Ireland

Transforming the Peace Process in Northern Ireland Aaron Edwards, Stephen Bloomer, 2008 Focuses on the decade since the signing of the Belfast Good Friday Agreement in 1998 This book delineates the key stumbling blocks in peace and political processes and examines in detail just how the conversion from terrorism to democratic politics is managed in post <u>Irish University Review</u>, 1970 A journal of Irish studies conflict Northern Ireland Fianna Fáil, Irish Republicanism and the Northern Ireland Troubles, 1968-2005 Catherine O'Donnell, 2007 Fianna F il the Republican Party has been defined by its emphasis on partition and its ideological commitment to reunification Through its use of anti partitionist rhetoric it has been the most vociferous political party in the Republic of Ireland on Northern Ireland Its emotive and divisive response to the outbreak of the Troubles in Northern Ireland was seen most clearly in the Arms Crisis of 1970 which threatened to destroy the party and the stability of the state in the Republic However the party has also been at the centre of the Northern Ireland peace process and the attempts at reconciliation between Unionists and Nationalists and North and South Yet there has been no substantive study of Fianna F il s language ideology and policy on Northern Ireland since the outbreak of the Troubles How could The Republican Party be such a central player in the political changes in Northern Ireland Has Fianna Fil changed its traditional republicanism and anti partitionism This fascinating and important new book provides an examination of Fianna F il s record on Northern Ireland since 1968 It outlines the party s response to the Troubles and its quiding principles in the search for the solution Catherine O Donnell argues that the relationship between Fianna F il and Sinn F c in is central to understanding Fianna F il s role in the peace process which began with the Fianna F il Sinn F c in talks in 1988 She investigates the implications of the peace process and the Good Friday Agreement for Fianna F il s ideology and policy on Northern Ireland and highlights the continued centrality of the relationship between Fianna F il and Sinn F c in to the peace process and politics in the Republic of Ireland As Sinn F c in make further electoral gains in the Republic of Ireland this book will be essential reading for anyone wishing to understand how Republicanism is a contested electoral resource Reflections on Europe Hans-Åke Persson, Bo Stråth, 2007 When Dutch and subsequently French within southern politics voters rejected the Draft Treaty for a Constitutin for Europe in Spring 2005 many voices called for a pause for reflection This book is in part a result of that moment of reflection We wanted to contribute to the debate about Europe but crucially we sought to do so by taking a step back from the problem formation and agenda setting of Brussels For the authors of this volume one key to establishing critical distance has been the reappraisal of the historical perspective Another has been the problematisation of Europe as a space as opposed to looking for a definition of borders The authors also seek critical distance through a focus on the tension between Europe as a culture as a polity and as an economy These tensions abve often been neglected or even ignored and the relationships have been seen as more or less synonymous and harmonious The aim of this volume then is two fold It wants developing a critical distance to the present Euroope to contribute to the vivid academic

research and debate on Europe which too often either develops distance without commenting on the present state of affairs or comments on the present without critical distance International Social Science Journal, 2005 Book Review Index Cumulation Dana Ferguson, 2005-09 Book Review Index provides quick access to reviews of books periodicals books on tape and electronic media representing a wide range of popular academic and professional interests. The up to date coverage wide scope and inclusion of citations for both newly published and older materials make Book Review Index an exceptionally useful reference tool More than 600 publications are indexed including journals and national general interest publications and newspapers Book Review Index is available in a three issue subscription covering the current year or as an annual cumulation covering the past year Culture and Customs of Ireland Margaret Scanlan, 2006-03-30 An overview of the culture and customs of modern day Ireland

Renovation Or Revolution? John Coakley, Brigid Laffan, Jennifer Todd, 2005 Renovation or Revolution opens a new field of British Irish studies beyond devolution studies in the United Kingdom and beyond Northern Ireland conflict studies It examines the redistributions of power and the new networks of policy making on these islands It analyses the extent to which they represent the emergence of a new regional British Irish political arena within a European and international context It asks whether we are seeing an emergent revolution in the territorial politics of these islands or whether the changes are simply renovations of an older territorial pattern The book discusses in detail the implementation of constitutional reforms in Scotland Wales England Northern Ireland and in British North South British Irish European and international perspectives

Dissecting Irish Politics Tom Garvin, Maurice Manning, Richard Sinnott, 2004 Essays by leading academic political and media figures in honour of Brian Farrell the well known political interviewer and former member of the Department of Politics in celebration of his 75th birthday in 2004 The essays cover aspects of history of Irish democracy the role of government institutions and their relations with Europe government finance the party system political campaigning for elections and referendums the lobby system and government relations with the media From Political Violence to Negotiated Settlement Maurice Joseph Bric, John Coakley, 2004 The contemporary relevance of the issues raised is underscored in a contribution from the chair of the arms decommissioning body British-Irish Relations and Northern <u>Ireland</u> Brendan O'Duffy, 2007 This book examines the evolution of British Irish relations since 1921 and applies theories from political and social sciences including international relations to the Irish Northern Irish case The book includes the generation and analysis of primary data on violence and constitutional debate the analysis of primary sources such as state papers and elite interviews with British and Irish officials representatives of constitutional political parties in Northern Ireland and leaders and activists of republican and loyalist parties organisations Part 1 looks at how the attempt to regulate the Irish nationalist challenge to the British state through dominion status for the Irish Free State and partition impacted on governance in both jurisdictions The re opening of the Northern Irish Question in the late 1960s is then analysed to

demonstrate the continued primacy of opposing claims to national self determination and their impact on subsidiary levels of conflict The final part covering the year 1985 to the present then demonstrates how the relative equalization of national status reflected in the bi national inter governmental relationship has been successful in regulating conflict by integrating vertically the bi nationality at state governmental and societal levels Finally implications of the British Irish approach are developed as contributions to the comparative theory and practice of ethno national conflict regulation Kevin Matthews, 2004 Fatal Influence challenges and revises many widely held assumptions about a pivotal moment in both British and Irish history and persuasively demonstrates that Ireland's impact on British politics lasted far longer and was far greater than has been realized Kevin Matthews places the settlement of the Irish Question in the 1920s within the broader context of a revolution then taking place in British politics and shows how each affected the other In a detailed investigation he explores the Irish partition and the often conflicting motives that led to this momentous decision Far from solving the Irish Question dividing the country into two parts merely created what one politician at the time called its elements of dynamite These explosive elements were thrown into an already unstable political situation in Britain with three political parties Liberals Conservatives and Labour all vying for a place in that nation s traditional two party system The book brings together some of the most colourful characters of 20th century British and Irish history from Winston Churchill and Michael Collins to David Lloyd George and Eamon de Valera Looming behind is Sir James Craig the rock like embodiment of Ulster Unionism But this story of high politics also involves men whose careers are not normally associated with the Irish conflict figures such as Stanley Baldwin Ramsay MacDonald Neville Chamberlain and even Oswald Mosley and Anthony Eden *Internationale* Bibliographie der Rezensionen wissenschaftlicher Literatur ,2004 Etudes Irlandaises ,1972 **Irish Protestant** Identities Mervyn Busteed, Frank Neal, Jonathan Tonge, 2008 Irish Protestant Identities is a major multi disciplinary portrayal and analysis of the often overlooked Protestant tradition in Ireland A distinguished team of contributors explore what is distinctive about the religious minority on the island of Ireland Protestant contributions to literature culture religion and politics are all examined Accessible and engaging throughout the book examines the contributions to Irish society from Protestant authors Protestant churches the Orange Order Unionist parties and Ulster loyalists Most books on Ireland have concentrated upon the Catholicism and Nationalism which shaped the country in terms of literature poetry politics and outlook This book instead explores how a minority tradition has developed and coped with existence in a polity and society in which some historically felt under represented or neglected **Choice** ,2008
