## **Changing Course The Capitalist Revolution In Argentina:**

**Changing Course** William E. Ratliff, Roger W. Fontaine, 1990      **Argentina's Capitalist Revolution Revisited** William E. Ratliff, Roger W. Fontaine, 1993 This essay examines the shift from statist stagnation to free market growth driven by Argentine president Carlos Menem in 1989 The author discusses both the 1930s decline that dumped Argentina from the seventh richest country in the world to the seventy seventh and the 1990s reforms against inefficiency and corruption that thrust Argentina back into the world economy      **Argentina** Colin M. MacLachlan, 2006-04-30 Why has Argentina failed so spectacularly both economically and politically It is a puzzle because the country seemed to have all the requirements for greatness including a well established middle class of professionals Its failure raises the specter that other middle class societies could also fail In Argentina MacLachlan delivers history with a plot a sense of direction and purpose and fascinating conclusions that reveal a much more complex picture of Argentina than one might have had in mind prior to reading this book Argentina traces the roots of the nation from the late colonial period to the present and examines the impact of events that molded it the failure of political accommodation in 1912 the role of the oligarchy the development of a middle class gender issues the elaboration of a distinct culture the era of Peron the army and the dirty war The conclusion suggests the reasons for the nation s difficulties The IMF World Bank and international financial markets play a role but so does a high level of political corruption and mismanagement of the economy that emerged from political and economic failure Juan and Eva Peron tried to override politics to create an economic and social balance between urban labor and agriculture interests but failed The dirty war arose from that failure Nationalism forged a culture of victimization and resentment that continues to this day Laying aside standard explanations MacLachlan presents a portrait of Argentina that emphasizes the role of a destructive nationalism and a form a corruption that turns citizens into clients      **Capital and Collusion** Hilton L. Root, 2016-06-28 Why does capital formation often fail to occur in developing countries Capital and Collusion explores the political incentives that either foster growth or steal nations growth prospects Hilton Root examines the frontier between risk and uncertainty analyzing the forces driving development in both developed and undeveloped regions In the former he argues institutions reduce everyday economic risks to levels low enough to make people receptive to opportunities for profit stimulating developments in technology and science Not so in developing countries There institutions that specialize in sharing risk are scarce Money hides under mattresses and in teapots creating a gap between a poor nation s savings and its investment As a consequence the developing world faces a growing disconnect between the value of its resources and the availability of finance What are the remedies for eliminating this disparity Root shows us how to close the growing wealth gap among nations by building institutions that convert uncertainty into risk Comparing China to India Latin America to East Asia and contemporary to historical cases he offers lessons that can help the World Bank and the International Monetary Fund to tackle the political incentives that are the source of poor governance in developing nations      **State Resistance to**

**Globalisation in Cuba** Antonio Carmona Báez, 2004-03-20 How has the government and the people of Cuba actively resisted neo liberal globalisation How is it that the Cuban Communist Party continues to exist To what extent is Cuba affected by global trends and pressures Antonio Carmona Báez challenges those on the Left who romantically support the Cuban Revolution as well as those who claim that the free market is the ideal economic model for all states Instead he presents an intelligent account of the serious and contradictory consequences of Cuba's social political and economic restructuring The author revisits the history of the Cuban Revolution and the crisis after the fall of Cuba's superpower ally the Soviet Union to provide answers to these questions

*The Character of Nations* Angelo Codevilla, 2009-03-24 In the aftermath of the Cold war people around the globe are reexamining and reinventing their political systems conscious that political choices imply different ways of life In this new cross cultural study Angelo M Codevilla illustrates that as people shape their governments they shape themselves Drawing broadly from the sweep of history from the Roman republic to de Tocqueville's America as well as from personal and scholarly observations of the world in the twentieth century *The Character of Nations* reveals remarkable truths about the effects of government on a society's economic arrangements moral order sense of family life and ability to defend itself Codevilla argues that in present day America government has had a profound negative effect on societal norms It has taught people to seek prosperity through connections with political power it has fostered the atrophy of civic responsibility it has waged a Kulturkampf against family and religion and it has dug a dangerous schism between those who serve in the military and those who send it in harm's way Informative and provocative *The Character of Nations* shows how the political decisions we make have higher stakes than simply who wins elections
