Pinar, Nicholas Ng-A-Fook, Ruth Kane, 2020-01-14 This book counters the cultural homogenization of global policy It examines the integrity of teacher education in particular places serving particular communities at particular historical moments In this collection Canadian scholars articulate a response to their collective concerns about the impact of global policy on teacher education provoking a far reaching dialogue about teacher education in and for our times The first two decades of the new millennium have witnessed unprecedented appraisal analysis and educational policy formulations related to teaching K 12 across the Western world In turn teacher education has been greatly impacted as governments around the world see the reform and management of teacher education as a key component in restructuring education toward greater economic competitiveness The result has been an unwarranted and undesirable level of standardization It is vital to the future of teacher education and concomitantly public education that we imagine alternatives to the homogenization of the educational experience that globalizing policies install What is needed are vocabularies that enable educators and teacher educators to discern and articulate educational purposes beyond capital and which focus on the kinds of educational experiences that can help prepare the young to lead good and worthwhile lives Using lessons learned from the Canadian context the authors identify and investigate the importance of initial and continuing professional education that fosters teachers intellectual freedom and study advances an informed and critical appreciation of civic particularity and historical circumstance and cultivates ethical i e pedagogical engagement with ideas and histories teachers own and their students as crucial themes of

teacher education globally Published in English      **Religious Soft Diplomacy and the United Nations** Sherrie M. Steiner,James T. Christie,2021-04-21 The engagement of religious diplomacy within the United Nations systems has become increasingly important for achieving the Sustainable Development Goals The editors argue that effective religious diplomacy must reflect the great diversity of religious and spiritual expressions within human communities The editors argue that this can best be achieved through a worldview shift within the United Nations systems Religious engagement in the United Nations systems has been understandably constrained by limited and formal organizational structures and conventions However the existing patterns of engagement mitigate against the very goals they seek to achieve The editors argue that expanded yet measured religious inclusion will strengthen social cohesion in the global community Contributors demonstrate how communities become stronger when marginalized minority voices are included in public discourse The editors further argue that governance has a responsibility to ensure a safe environment for this interaction The editors propose that the United Nations adopt the posture of loyal opposition that is inherent in parliamentary democracies to serve as a guideline for expanded religious engagement The contributors advance this proposal with illustrations from multiple contexts that address a diverse array of social problems from perspectives rooted in theory and practice      **Political Illusion and Reality** David W. Gill,David Lovekin,2018-09-27 Are all governments east and west Muslim and secular authoritarian and constitutional Republican and Democratic fundamentally the same all of them under the extraordinary growing power of technique and bureaucracy Is all politics then just an illusory affair of lies deception propaganda partisan passions and chaos on the surface of government and party In his vast and penetrating writings Bordeaux sociologist Jacques Ellul 1912 1994 points in those directions Political Illusion and Reality is a collection of twenty three essays on Ellul s political thought Veteran as well as younger Ellul scholars political leaders activists and pastors discuss aspects of Ellul s thought as they relate to their own fields of study and political experience Beginning with his 1936 essay Fascism Son of Liberalism translated and published here in English for the first time Ellul and these authors will provoke readers to think some new thoughts about politics and government and think more deeply about the main issues we face in our politically divided and troubled times      **The Art of Living for A Technological Age** Ashley John Moyse,Scott A. Kirkland,2021-02-23 The Art of Living for A Technological Age sketches the crisis of our late modern age where persons are enamored by the promises of progress and disciplined to form by the power of technology the ontology of our age Yet it also offers a response attending to those performative activities educative and transformative social practices that might allow us to live humanly and bear witness to human being becoming for a technological age As such it is an exemplary example of the goals and outcomes of the Dispatches series the individual volumes of which draw on diverse theological resources in order to offer urgent responses to contemporary crises Authors in the series introduce succinct and provocative arguments intended to provoke dialogue and exchange of ideas while setting in relief the implications of theology for political and moral life      Collected Works of George Grant George Parkin Grant,2000

The fourth and final volume of the Collected Works of George Grant contains his writings from the last period of his life and includes unpublished material such as lectures interviews and excerpts from his notebooks Athens and Jerusalem Ian H. Angus, Ronald Samuel Dart, Ron Dart, Randy Peg Peters, 2006 George Grant 1918 1988 has been called Canada's greatest political philosopher To this day his work continues to stimulate challenge and inspire Canadians to think more deeply about matters of social justice and individual responsibility One of the primary reasons for Grant's enduring significance is that his work connects practical and political issues to deeper questions about Western civilization ontology and religion However while there has been considerable discussion of Grant's political theories relatively little attention has been paid to their theological and philosophical underpinnings In Athens and Jerusalem Ian Angus Ron Dart and Randy Peg Peters gather together sixteen original essays to offer an elaboration and critique of the theological and philosophical basis of Grant's work The collection which includes previously unpublished notes from four of Grant's lectures considers familiar themes of nationalism Canada and the United States modernity technology and liberalism from a theological and philosophical perspective philosophical roots of Western civilization to diagnose its present condition and to suggest alternative sources of illumination A fascinating read for anyone interested in Canadian politics philosophy or theology this original collection goes one step further in helping us understand what is lasting about Grant's work **The Book Review Digest**, 2007
