Epicenter Joel C. Rosenberg, 2006 10 new predictions about the state of affairs in the Middle East from the best selling author of *The Copper Scroll* *A Case for Historic Premillennialism* Craig L. Blomberg, Sung Wook Chung, 2009-02-01 Many evangelical readers who have learned the basics of eschatology from popular authors and more recently from novelists assume that dispensational premillennialism with its distinctive teachings about the pretribulation rapture of the church is the only reliable view of the end times and the return of Christ This volume however offers a compelling case for an alternative perspective one that was widely prevalent throughout church history The contributors all respected scholars in their respective fields suggest that classic premillennialism offers believers a more coherent and viable approach to understanding eschatology Their studies which examine eschatology from biblical theological historical and missiological approaches provide a broadly accessible argument for returning to the perspectives of historic premillennial eschatology

Zion's Christian Soldiers? Stephen Sizer, 2021-07-24 Many Bible believing Christians are convinced that God blesses those nations that stand with Israel and curses those that don't This belief has had a significant influence on attitudes towards the ongoing Palestinian Israeli conflict in the Middle East Claims made in books like the Scofield Reference Bible and Hal Lindsey's *The Late Great Planet Earth* have fed into contemporary Christian Zionism with radical implications for how we view our faith and the world in which we live Stephen Sizer contends that this view is based on misinterpretation of the Bible He provides an introduction to Christian Zionism and a clear response and positive alternative based on a careful study of relevant biblical texts His intention is to encourage dialogue on the relationship between Israel and the Christian church and offer a more constructive view of the future and our role in it This accessible volume includes numerous tables and diagrams questions for Bible study and further reflection and a glossary of terms It concludes with a previously unpublished sermon by John Stott on *The Place of Israel*

Apocalypses Eugen Weber, 1999 Apocalyptic visions and prophecies from Zarathustra to yesterday form the panorama in Eugen Weber's profound and elegant book Beginning with the ancients of the West and the Orient Weber finds that an absolute belief in the end of time when good would do final battle with evil was omnipresent

A Reenchanted World James William Gibson, 2009-04-14 A surprising and enlightening investigation of how modern society is making nature sacred once again For more than two centuries Western cultures as they became ever more industrialized increasingly regarded the natural world as little more than a collection of useful raw

resources The folklore of powerful forest spirits and mountain demons was displaced by the practicalities of logging and strip mining the traditional rituals of hunting ceremonies gave way to the indiscriminate butchering of animals for meat markets In the famous lament of Max Weber our surroundings became disenchanted with nature s magic swept away by secularization and rationalization But now as acclaimed sociologist James William Gibson reveals in this insightful study the culture of enchantment is making an astonishing comeback From Greenpeace eco warriors to evangelical Christians preaching creation care and geneticists who speak of human animal kinship Gibson finds a remarkably broad yearning for a spiritual reconnection to nature As we grapple with increasingly dire environmental disasters he points to this cultural shift as the last utopian dream the final hope for protecting the world that all of us must live in *Vanished Into Thin Air* Hal Lindsey,1999 Visions of the future as portrayed by popular books and films include catastrophic events like asteroid strikes volcanic eruptions earthquakes and plagues Images of the future are more often than not eerie post apocalyptic scenes complete with darkened skies over ruined cities presided over by chaos Those images are completely in harmony with the prophecies of the Book of Revelation for the last days But there is another prophecy the promise of the Rapture of the Church Book jacket *Daniel Revisited* Mark Davidson,2016-01-26 Daniel Revisited makes the case that the ancient book of Daniel reveals four specific events to occur in the Middle East in the end times prior to the Tribulation This new look at old assumptions about prophecy and plain reading of Scripture combines a comprehensive study of relevant history with the fresh perspective of today s current events Not only does it show that the Antichrist will be Muslim it also identifies four events the author calls Signposts which will occur in a series leading right up to the Tribulation The first event involving Iraq has already occurred The second of the four events will be the invasion of the whole Middle East by Iran The fourth event will witness the Antichrist s emergence **AB Bookman's Weekly** ,1997 **Canadian Books in Print 2002** Marian Butler,2002-02 *The Protocols of the Elders of Zion* David G. Goodman,2005 An updated version of a paper delivered at a symposium organized by the Vidal Sassoon International Center for the Study of Antisemitism in October 2004 The Protocols became very popular in the 1980s 90s when anti Americanism was associated with alleged Jewish control of the USA However the Protocols appealed not only to anti Americans as indicated by its embrace by four advocates whose motivations and interests differed considerably The Christian fundamentalist xenophobe Masami Uno claims that the Jews threatened to destroy his country Kinji Yajima learned from the Protocols that the Jews were responsible for his failure to gain the recognition he felt he deserved The New Left ideologue Ryu Ohta published many works about conspiracy theories and the Jewish threat In 1995 Shoko Asahara s Aum cult released poison gas in the subway in an effort to disrupt the persecution of his religion by what he most likely saw as a global Jewish conspiracy Asahara s example shows how in our age of terrorism the Protocols continues to provide an enabling ideology to attack Jews or Jews for their alleged role in a global conspiracy including in a society like Japan which has no Jews to speak of **The Publishers Weekly** ,1918 National Union
