the study of modern poetry including its proximity to popular song hallowed objecthood and seeming autonomy from historical determination this revisionary theory of lyric presents a new history of modern US poetry as one sonorous practice among many clamorous others Focusing on the mid twentieth century Kilbane traces the impact of new sound technologies on a diverse array of literary and musical works by Lorine Niedecker Harry Partch Louis and Celia Zukofsky Sterling Brown John Wheelwright Langston Hughes Marianne Moore Russell Atkins and Helen Adam Kilbane shows how literary critics can look to media history to illuminate poetry's social life and how media scholars can read poetry for insight into the cultural history of technology In this book the lyric poem emerges as a sensitive barometer of technological change **Chapters**
