Collecting Nature Sylvia Heudecker,2015-02-05 Nature can be collected in many forms and shapes live animals have been locked up in cages displayed in zoos and menageries and their hides and dried body parts have been used as part of installations in galleries and studies Plants from far away countries have been cultivated in botanical gardens and in hothouses Furthermore the depiction of medicinal plants and of prized animals was regarded as an important part of the decorative schemes in an attempt to bring nature indoors Recent research has also shown that artificialia and naturalia were displayed side by side in early modern Europe sometimes in the company of scientifica and that the exhibition set up often included a complex arrangement of stables kennels aviaries art gallery and library Villas and country houses displayed favourite horses as well as paintings and antiquities Botanical gardens and gardens of simples at monastic foundations and universities imposed order and intellectual scope to the cultivation of many new species imported to Europe during the age of exploration Of particular interest to the mission of this working group is the fact that so many collections of naturalia were displayed in close proximity to other collecting categories according to a similar choreography as well as according to a similar logistical set up Thus the collections outdoors as well as indoors resemble one another in terms of labels adopted and discussions conducted on the respective merits of order and categorisation The essays in the present volume therefore connect art nature and science by tracing objects as well as the practices of collecting and display from the early kunst und wunderkammern to the more scientific aspirations and publications of the eighteenth century Indoor as well as outdoor locations of collecting are considered as well as the dissemination of objects and knowledge in the form of books during a period which gradually led from an intrinsic if untidy connection between art and nature towards a new world of clear if unhappy divisions

Fountain Pens Peter Twydlе,2009-06-30 The fountain pen as we know it today developed over thousands of years from the simple stylus used for cutting marks into clay tablets to the brush through the reed the quill and the steel nib dip pen and finally to the self contained fountain pen The advent of electronic communication of the written word has failed to dim the appeal of the fountain pen and names such as Parker Waterman and Sheaffer remain household names Fountain Pens covers the complete history of the fountain pen with useful advice on how to build a collection and where best to look for fountain pens from car boot sales to the internet
