Contemporary Ukraine on the Cultural Map of Europe Larissa M. L. Zaleska Onyshkevych, Maria G. Rewakowicz, 2014-12-18 The concept of a return to Europe has been integral to the movement for Ukrainian national rebirth since the nineteenth century While the goal of a more fully reformed politics remains elusive numerous expressions of Ukrainian culture continue to develop in the European spirit This wide ranging book explores Ukraine's European cultural connection especially as it has been reestablished since the country achieved independence in 1991 The contributors discuss many aspects of Ukraine's contemporary culture history politics and religion in Part I literary culture in Part II and language popular culture and the arts in Part III What emerges is a fascinating picture of a young country grappling with its

divided past and its colonial heritage yet asserting its voice and preferences amid the diverse and at times conflicting realities of the contemporary political scene Europe becomes a powerful point of reference a measure against which the situation in post independence Ukraine is gauged and debated This framework allows for a better understanding of the complexities deeply ingrained in the social fabric of Ukrainian society

Spatial Interrogatives in Europe and Beyond Thomas Stolz,Nataliya Levkovych,Aina Urdze,Julia Nintemann,Maja Robbers,2017-08-07 The extant generalizations about the grammar of space rely heavily on the analyses of declarative sentences There is a need to check whether these generalizations also hold in the domain of interrogation To this end this book analyzes data from some 450 languages including non standard varieties The focus is on paradigms of spatial interrogatives such as English where whither and whence and their internal organization These paradigms are checked for recurrent patterns of morphological mismatches such as syncretism and different degrees of complexity e g the number of segments The data base consists of a large parallel literary corpus Le petit prince and translations thereof which is complemented by further sources of information such as descriptive grammars The data are analyzed from a synchronic perspective However diachronic issues are addressed unsystematically too It is shown that the distribution of phenomena which characterize paradigms of spatial interrogatives are subject to areal linguistic factors This is the first typological study of spatial interrogatives It provides new insights for students of the grammar of space morphological paradigms and language typology
