**How to Teach AI** Rachelle Dené Poth, 2024 Get practical tools and strategies for teaching AI across the K 12 curriculum with this accessible guide As AI continues to transform our world educators have a responsibility to stay current with the changes and ensure that students have the necessary knowledge and skills to succeed in the future Written by an educator who is currently teaching on this topic How to Teach AI shares practical strategies and tools based on what good practice looks like in the classroom right now Readers will build confidence in integrating AI into their curriculum so they can effectively prepare students for their careers Taking a friendly and accessible approach the book covers a range of topics related to AI such as machine learning robotics and natural language processing and includes examples of how these technologies are being implemented in different industries and their impact on education The book includes a chapter dedicated to the ethics of AI addressing issues around bias intellectual property student data privacy and more The book includes Ideas for using generative AI in the classroom and tips for writing effective prompts Activity ideas across content areas including computer science economics literature music and more Time saving ideas for teachers and study aids for students to explore AI powered tool recommendations for teachers Questions for reflection in every chapter With examples from educators in the field and a variety of resources to apply in the classroom this book helps educators become comfortable with this important topic and create meaningful learning experiences for their students Audience Elementary and secondary educators and technology coaches Copyright and Anonymity in the Creative User-Generated World Rachel Maguire, 2025-05-01 This book explores the relationship between copyright law online anonymity and creative user generated content CUGC Presenting original empirical findings the book evaluates the co existence of copyright law and normative systems regulating a CUGC landscape made up of artists photographers and writers and makes novel recommendations for copyright reform It takes a multi jurisdictional approach across Anglo American and EU legal systems using the UK USA and

Germany as representative jurisdictions for legal analysis Qualitative findings are drawn from creators and communities on Reddit and 4chan Copyright subsists in much CUGC but pervasive anonymity makes it difficult for the law to regulate it effectively Simultaneously anonymity offers creative benefits in a way that highlights flaws in traditional justifications of copyright Comparisons between community norms and copyright law identify practical differences but also fundamental compatibilities in terms of ownership expectations However the simultaneous existence of legal and normative enforcement mechanisms complicates matters for creators and potential users with negative implications for creativity and copyright law While existing reform efforts have made suggestions to create a UGC exception these overlook and undermine the role of CUGC creators as copyright holders This can be addressed through the consideration of a framework of supplementary CUGC guidelines when developing such reforms This valuable resource for researchers and students provides a distinct perspective in framing CUGC creators as copyright holders examining online anonymity as a pivotal factor influencing regulation
