next generation to become problem solvers and creative thinkers empowered with the necessary skills to make this world a better place. It provides practical methods for sustainable integrative and active learning and investigates the why behind these proven and effective methods. Discussing the different levels of subject integration in school from intradisciplinary to transdisciplinary teaching, the authors analyse their potential holistic impact and knowledge retention effectiveness. With a substantial section on the efficacious teaching of the increasingly indispensable field of critical thinking, this book is built up first around a discourse of the intended methodology, secondly it also includes a very practical mid section with direct and meticulously described project ideas for teachers to try out and finally a discussion and an analysis on what effects the proposed techniques might have and how teachers and students could be facilitated in their learning processes by school leaders and administrators. This pioneering endeavour is an important text for education professionals globally as well as for the policy makers that regulate their work. It may also be of interest to parents and to a wider society. Additional digital resource content is available online and includes practical examples, explanations and video to help support sustainable integrative and active learning.

Literacy and Learning in the Content Areas Sharon Kane, 2025-04-23

The fifth edition of *Literacy and Learning in the Content Areas: Enhancing Knowledge in the Disciplines* provides readers with the knowledge, motivation, tools and confidence for integrating literacy in their disciplinary classrooms. Offering a literature-based approach to teaching disciplinary literacy, the new edition shares important ways in which teachers of courses in the disciplines can enhance student learning of subject matter and skills while also fostering their growth in the many facets of literacy. Throughout each chapter, Kane provides engaging and creative strategies and activities to make literacy come alive in discipline-specific courses and to encourage students to explore and learn in the classroom. Embedded in each chapter are examples, resources and strategies to help readers actively engage with and implement literacy practices. These features include Teaching in Action examples by subject area, Activating Prior Knowledge activities to stimulate critical thinking to prepare readers to learn complex theoretical and conceptual material about teaching, learning and literacy, and end of chapter Application Activities to apply field experiences to classroom use. New to the Fifth Edition: Every chapter of this new edition is updated to reflect the current approaches, standards and benchmarks for discipline-specific literacy. A new introduction with reading activities for professors to exemplify a common reading experience with their students, supported by online reading materials. New book talks to highlight books that show disciplinary thinking in action, including literature related to art, physical education, economics, computer science, engineering, food science, music, robotics, environmental science, family and consumer science, and technology. Expanded practical instructional strategies with new examples focused on STEAM, science, technology, engineering, art, math, fields and topics relating to diversity and language, ESL, ENL and modern language learning. Updated examples and activities to emphasize students' active involvement in their own learning.
