The Journalist's Toolbox Mike Reilley, 2024-01-05 Focusing on the how and why of digital reporting this interactive textbook equips readers with all the skills they need to succeed in today's multimedia reporting landscape. The Journalist's Toolbox is an extension of the Journalist's Toolbox AI website which provides links to tools organized by beats and topics as well as social channels, a newsletter, and more than 95 training videos relevant to journalists. This handbook offers a deep dive into these digital resources explaining how they can be manipulated to build multimedia stories online and in broadcast. It covers all the basics of data journalism, fact checking, using social media, editing, and ethics, as well as video, photo, and audio production and storytelling. The book considers digital journalism from a global perspective, including examples and interviews with journalists from around the world. Packed full of hands-on exercises and insider tips, *The Journalist's Toolbox* is an essential companion for students of online digital journalism, multimedia storytelling, and advanced reporting. This book will also make an ideal reference for practicing journalists looking to hone their craft. This book is supported by training videos, interactive charts, and a pop-up glossary of key terms which are available as part of an interactive e-book or online for those using the print book.

Indigeneity as Social Construct and Political Tool Benjamin Gregg, 2025-12-29 Indigeneity as Social Construct and Political Tool shows that indigeneity is neither a static identity nor a vestige of the past but a dynamic and evolving framework capable of shaping the future through political imagination, technological innovation, and environmental stewardship. While indigenous identity is often perceived as fixed, natural, or objective, political theorist Benjamin Gregg reconceptualizes it as a practice, a social construct that when critically examined and strategically reconstructed functions as a powerful political tool. Through this lens, Indigenous communities can reclaim history, assert sovereignty, influence technological futures, and exercise environmental leadership. Indigeneity then is not merely a category of analysis but a generative proposition for the twenty-first century: a capacity to reimagine politics, equity, empowerment, and resilience alongside ecological responsibility on a globally interconnected scale. Gregg not only establishes this theoretical foundation by reinterpreting classical thinkers such as Vitoria and Rousseau but also illuminates the tangible potentials and real-world impacts that emerge at the intersection of modern science and Indigenous experience.

Man-Made Tracey Spicer, 2023-05-03 Walkley Award-winning journalist Tracey Spicer exposes the next frontier of feminism through the lens of artificial intelligence. *Man-Made* aims to open readers' eyes to a transformative technological shift in society and give them the tools to make positive change. Winner 2023 Australian Business Book Awards Social Responsibility Longlisted for the 2023 Walkley Book Award. Mum, I want a robot slave. Broadcaster Tracey Spicer had an epiphany when her young son uttered these six words. Suddenly, her life's work fighting inequality seemed futile. What's the point in agitating to change the present if bigotry is being embedded into our futures? And so began a quest to uncover who was responsible and hold them to account. Who is the ultimate villain? Big Tech whose titans refuse to spend money to fix the problem. The world's politicians who lack

the will to legislate Or should we all be walking into a hall of mirrors and taking a good hard look at ourselves This is a deeply researched illuminating and gripping ride into an uncertain AI fuelled future culminating in a resounding call to action that will shake the tech sector to its foundations Praise for Man Made Exhilarating The book we need as we grapple with how AI will change our lives and our world Dame Quentin Bryce Brilliant hilarious and terrifying You ll never see Alexa the same way again Juanita Phillips Tracey Spicer uses her unmistakably human voice to warn us all about the deeply sexist Frankenstein s Monster that is modern AI Yumi Stynes *Journal of AHIMA* ,2008 **Transcription of the Text of Sun**
