The Grove Encyclopedia of American Art Joan M. Marter, 2011 Arranged in alphabetical order these 5 volumes encompass the history of the cultural development of America with over 2300 entries The Economics of Attention Richard A. Lanham, 2006-04-21 If economics is about the allocation of resources then what is the most precious resource in our new information economy Certainly not information for we are drowning in it No what we are short of is the attention to make sense of that information With all the verve and erudition that have established his earlier books as classics Richard A Lanham here traces our epochal move from an economy of things and objects to an economy of attention According to Lanham the central commodity in our new age of information is not stuff but style for style is what competes for our attention amidst the din and deluge of new media In such a world intellectual property will become more central to the economy than real property while the arts and letters will grow to be more crucial than engineering the physical sciences and indeed economics as conventionally practiced For Lanham the arts and letters are the disciplines that study how human attention is allocated and how cultural capital is created and traded In an economy of attention style and substance change places The new attention economy therefore will anoint a new set of moguls in the business world not the CEOs or fund managers of yesteryear but new masters of attention with a grounding in the humanities and liberal arts Lanham's *The Electronic Word* was one of the earliest and most influential books on new electronic culture *The Economics of Attention* builds on the best insights of that seminal book to map the new frontier that information technologies have created *The Image in American Painting & Sculpture, 1950-1980*, 1981 Inaugural exhibition of the Akron Art Museum in a new facility focusing on representational art in Abstract Expressionism Pop 70's Realism Photo Realism Includes early appearances by Neo Expressionists Susan Rothenberg Julian Schnabel and Jonathan Borofsky **Contemporary Sculpture. Projects in Münster**, 1997 Klaus Bussman, Kasper König, Florian Matzner, 1997 The Accidental Possibilities of the City Katherine Smith, 2021-03-02 Claes Oldenburg's commitment to familiar objects has shaped accounts of his career but his associations with Pop art and postwar consumerism have overshadowed another crucial aspect of his work In this revealing reassessment Katherine Smith traces Oldenburg's profound responses to shifting urban conditions framing his enduring relationship with the city as a critical perspective and conceiving his art as urban theory Smith argues that Oldenburg adapted lessons of context gleaned from New York's changing cityscape in the late 1950s to large scale objects and architectural plans By examining disparate projects from New York to Los Angeles she situates Oldenburg's innovations in local geographies and national debates In doing so Smith illuminates patterns of urbanization through the important contributions of one of the

leading artists in the United States Art Books Wolfgang M. Freitag, 2013-10-28 First published in 1997 For this second edition of Art Books A Basic Bibliography of Monographs on Artists the vast number of new books published since 1985 was surveyed and evaluated This has resulted in the selection of 3 395 additional titles These selections reflective of the increase in the monographic literature on artists during the last ten years are evidence of the activities of a larger number of art historians in more countries worldwide of the increasingly diverse and ambitious exhibition programs of museums whose number has also increased dramatically and also of a lively international art market and the attendant gallery activities The selections of the first edition have been reviewed errors have been corrected and important new editions and reprints have been noted The second edition contains 278 names of artists not represented in the first edition Art of the 20th Century Karl Ruhrberg, Klaus Honnef, Manfred Schneckenburger, Christiane Fricke, 2000 The original edition of this ambitious reference was published in hardcover in 1998 in two oversize volumes 10x13 This edition combines the two volumes into one it s paperbound flexi cover the paper has a plastic coating smaller 8x10 and affordable for art book buyers with shallower pockets none of whom should pass it by The scope is encyclopedic half the work originally the first volume is devoted to painting the other half to sculpture new media and photography Chapters are arranged thematically and each page displays several examples in color of work under discussion The final section a lexicon of artists includes a small bandw photo of each artist as well as biographical information and details of work writings and exhibitions Ruhrberg and the three other authors are veteran art historians curators and writers as is editor Walther c Book News Inc **Pop Art 1955-70** Henry Geldzahler, 1985 **ABM** , 1984 Abstracts of journal articles books essays exhibition catalogs dissertations and exhibition reviews The scope of ARTbibliographies Modern extends from artists and movements beginning with Impressionism in the late 19th century up to the most recent works and trends in the late 20th century Photography is covered from its invention in 1839 to the present A particular emphasis is placed upon adding new and lesser known artists and on the coverage of foreign language literature Approximately 13 000 new entries are added each year Published with title LOMA from 1969 1971 *Citywide Contemporary Sculpture Exhibition* Toledo Museum of Art, 1984 **The Poetics of the Occasion** Marian Zwerling Sugano, 1992 Although Mallarme is commonly viewed as the high priest of the autonomous work of art by far the bulk of his actual poetic writing was occasional verse With few exceptions the works written after 1873 manifest a reinvestment in the world subsequent to the metaphysical crises of the 1860 s In addition to the Tombeaux the toasts and certain of the Eventails Mallarme composed the Vers de circonstance more than 450 quatrains and distichs inscribed on envelopes postcards calling cards Easter eggs small stones photographs and jugs of Calvados This is the first comprehensive reading and analysis of the neglected late poetry heretofore dismissed as of marginal interest This book has a dual purpose By exploring the occasional verse of Mallarme which itself thematizes the problematics of the occasion the author seeks to rehabilitate such writing for critical study She does this not by proclaiming its high seriousness but by insisting on its casual

amenable public nature Unlike previous critics who have often apologized for straying into the fringes of the canon the author delights in the marginal insisting that in a poetics of the occasion traditional oppositions such as center margin become skewed and break down The author s second purpose is to come to a better understanding of Mallarme in light of what he actually wrote rather than the work projected in his correspondence and prose articles which has claimed so much critical attention Each of the chapters of the book highlights one aspect of occasional poetry through an investigation of representative texts both canonical and occasional The author also discusses the relationship between Mallarme s poetics and the plastic arts tracing the changing conception of the representation of the monument from the nineteenth to the twentieth century as well as the correspondences between the more radical aspects of Mallarme s practice of writing and the contemporary arts Far more than a study of a single writer this book is the first to propose a pragmatic definition of occasional literature to undertake a broad study of the problem of occasion in literature and to trace the historical trajectory of occasional writing as a specific discourse The book is illustrated with 27 halftones BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved Claes Oldenburg Claes Oldenburg,Pace Gallery,1992
