Meeting the Challenges of Existential Threats through Educational Innovation Herner Saeverot,2021-11-22

Meeting the Challenges of Existential Threats through Educational Innovation is the first book of its kind to provide an educational and systematic analysis of problems and solutions regarding the most pressing threats that humankind is facing. The book makes a case for the importance of education responding to significant threats including climate change, pandemics, decline in global biodiversity, overpopulation, egoism, ideologies, nuclear biological and chemical warfare, inequality, artificial intelligence, and ignorance, and the distortion of truth. Written by leading experts in their field based on cutting edge research, the chapters explore these issues and offer suggestions for how education can address these problems in the future. This groundbreaking and highly topical book will be an essential reading for academics, researchers, and post graduate students in the fields of education, research, environmental studies, educational politics, and organizational management. **Personalized**

Mark Abraham, David C. Edelman, 2024-10-15 In a world where consumers expect more instantly and seamlessly, personalization is a strategic imperative. Consumers want personalized experiences, but few companies are rising to the challenge. Those that succeed in personalization build trusted relationships with millions of customers and engage with them at every step throughout their journey. Through the power of AI, they rethink their operations and unleash the creativity of their teams to fine tune every interaction, delighting customers in the process. But most companies are not doing personalization well, leading to wasted money, squandered effort, and missed expectations. To be done effectively, personalization must be a critical element of an organization's strategy. **Personalized** is a playbook for delivering true personalization at scale. In this book, Boston Consulting Group's Mark Abraham and Harvard Business School's David C. Edelman describe Five Promises of Personalization: Empower Me, Understand each customer's needs and how best to meet them, Know Me, Win customers' trust and permission to use their data to improve their experience, Reach Me, Reach out to the right customer in the right channel at the right time, Show Me, Tailor unique content to be relevant to each customer, enabled by generative AI, Delight Me, Design new ways of working and ensure continuous improvement so a customer's experience feels magical. With detailed examples across industries including retail, health care, banking, technology, and travel, this book will help executives learn how to put personalization at the center of their strategy, accelerate growth, and capture their share of the 2 trillion personalization prize. *Willing's Press Guide and Advertisers' Directory and Handbook*, 2002 *Pratt's Guide to Private Equity Sources*, 2003 *Dwell*, 2005-01 At Dwell, we're staging a minor revolution. We think that it's possible to live in a house or apartment by a bold modern architect, to own furniture and products that are exceptionally well designed, and still be a regular human being. We think that good design is an integral part of real life. And that real life has been conspicuous by its absence in most design and architecture magazines. *Willing's Press Guide*, 2004 Coverage of publications outside the UK and in non-English languages expands steadily until in 1991 it occupies enough of the Guide to
