New Chatgpt For Blogging In Usa:

The Tech-Media Hybrid Qun Wang, 2025-12-23 Google is typically thought of as a tech giant and the world's largest search engine but it was also among the first tech companies to invest in news. After 9/11 the company recognized the economic and social value of up-to-the-minute information and began to incorporate news into its business. Google News built on automation, algorithms, aggregation, and the unbundling and rebundling of news, and Google's other news-related initiatives went on to play a major role in shaping the information ecosystem of the twenty-first century. In *The Tech-Media Hybrid*, Qun Wang examines Google's engagement with news across more than two decades, tracing the company's complicated relationship with the news industry. She shows how Google developed a push and pull relationship with the media sector, boosting its visibility while also competing against it and establishing new norms. What the company calls the Google way of experiencing news has exerted a profound influence on traditional media. Google's news ambitions in turn have been shaped by the global news industry's actions and reactions at every step. Shedding new light on the vast transformations of the past quarter century, this multimethod interdisciplinary book also offers insight into how the news environment might evolve in the era of AI.

AI in the Classroom Ross Smith, Mayte Cubino, Emily McKeon, 2025-10-16
DESCRIPTION For thousands of years, education has been shaped by technology, from clay tablets and hornbooks to the printing press and now to digital learning platforms and remote education systems. As artificial intelligence becomes more embedded in our daily lives, its role in education continues to explode. AI tools offer personalized instruction, streamlined administrative tasks, and enhanced student engagement, creating a learning environment tailored to individual needs. This book offers a guide to AI understanding and implementation in the classroom and how it makes personalized learning practical, scalable, and achievable for all. Readers will understand how the advances in technology over time have led to improvements in education and how AI can enhance a personalized learning experience. The authors go in depth to find the latest research to explore the implementation of AI strategies and technology in the classroom, along with the critical and increasingly important focus on security, privacy, and ethical concerns. By the end of this book, the reader will have a robust understanding of AI and how it can help implement, facilitate, and augment personalized instruction strategies and techniques to support student learning and growth. The future of education is here, and it is intelligent, adaptive, and inspiring. **WHAT YOU WILL LEARN** Leverage AI to personalize learning. Prepare students for an AI-integrated world. Managing Sport Events T. Christopher Greenwell, Leigh Ann Danzey-Bussell, David J. Shonk, 2024-06-26

Running a sport event whether it's an international competition or local youth tournament requires acute knowledge and the ability to plan organize promote lead and communicate effectively And no other text prepares

students for the task as effectively as *Managing Sport Events Third Edition With HKPropel Access*. While other texts in this space stray into the area of facility management, *Managing Sport Events* keeps its focus where it should be by providing a thorough grounding of the entire event management process. Beginning with an overview of event conception and development, the text then moves into the principal planning areas of budgeting, marketing, promotion, sponsorships, and legal and risk management. Later chapters focus on key operational areas such as staffing, event services, and logistics, and event day management, and it closes with postevent details and evaluation. The third edition includes new and updated content that incorporates plenty of contemporary real life examples. Insights into how event management has been affected by COVID 19 and by the emergence of social media, sustainability efforts, and diversity, equity, and inclusion (DEI) initiatives. All new content addressing the role of brand ambassadors, social media influencers, and nontraditional media in promoting events and encouraging fan engagement. An updated discussion of event sponsorships and how sport organizations are implementing creative activation strategies pre event and game day deliverables and the latest technologies to maximize exposure and measure effectiveness. An expanded discussion of contracts and other legal considerations such as compliance with the Americans with Disabilities Act (ADA). An expanded section outlining how principles of project management can be used to effectively plan events. New industry profiles that provide insights into key players and noteworthy happenings in event management. Related online activities delivered through HKPropel provide robust learning opportunities for students. A brand new semester long project in which students plan, prepare, produce, and evaluate a fictional pickleball tournament, as well as compile a formal event management plan handbook. Scenario based activities in which students make a decision and then see the implications of their choice. Mini case studies for each chapter with questions to test comprehension. Sample contracts that represent common agreements encountered in event management. Practicing and aspiring professionals working in parks and recreation, tourism, hospitality, and sport organizations at all levels (youth, high school, college, amateur, minor league, professional, and international) will find this book a valuable reference in their roles as event managers. Blending traditional business tenets of sport management with the distinct aspects of event management, *Managing Sport Events Third Edition* prepares readers to manage events with efficiency and ease so that fans and participants alike have lasting game day memories. Note: A code for accessing HKPropel is not included with this ebook but may be purchased separately.

The Venture Alchemists Rob Lalka, 2024-05-14 Gold Medalist 2025 Axiom Business Book Awards Business Ethics Future Trends category Shortlist 2024 Best in Business Book Awards Society for Advancing Business Editing and Writing. We once idolized tech entrepreneurs for creating innovations that seemed like modern miracles. Yet our faith has been shattered. We now blame them for spreading lies, breaking laws, and causing chaos. Yesterday's Silicon Valley darlings have become today's Big Tech villains. Which is it? Are they superheroes or scoundrels? Or is it more complicated, some blend of both? In *The Venture Alchemists*, Rob Lalka demystifies how tech entrepreneurs built empires that made trillions. Meta started as a cruel Halloween

prank Alphabet began as a master's thesis that warned against corporate deception and Palantir came from a campus controversy over hateful speech. These largely forgotten origin stories show how ordinary fears and youthful ambitions shaped their ventures, making each tech tale relatable, both wonderfully and tragically human. Readers learn about the adversities tech entrepreneurs overcame, the troubling tradeoffs they made, and the tremendous power they now wield. Using leaked documents and previously unpublished archival material, Lalka takes readers inside Big Tech's worst exploitations and abuses alongside many good intentions and moral compromises. But this story remains unfinished, and *The Venture Alchemists* ultimately offers hope from the people who decades ago warned about the risks of the emerging Internet. Their insights illuminate a path toward more responsible innovations so that technologies aren't dangerous weapons but valuable tools that ensure progress, improve society, and enhance our daily lives.

You to the Power of Two Joseph Bradley, Don Tapscott, 2025-12-02. A new and previously unexplained era of artificial intelligence will transform human life forever. Discover what this means for our personal identity and our future. AI tools are already reshaping the way we work and communicate, but as they gain autonomy, they will no longer be mere tools; they will become active participants in our world. As our digital identities become smarter and more capable, we enter the age of identic AI, a world where ever-present AI companions streamline daily tasks, enhance wellbeing, and offer lifelong learning. For professionals, these intelligent agents will amplify creativity, boost productivity, and expand human potential. But with this extraordinary promise comes profound risks to individuals, businesses, and society itself. From technology experts Joseph M. Bradley and Don Tapscott, *You to the Power of Two* is a thought-provoking and timely guide that will prepare readers to thrive in a world of personal AI agents by revealing how our new digital sidekicks will transform our careers, healthcare, education, and relationships. Empowering readers to embrace AI with confidence and purpose rather than fear, exploring AI's role in redefining human potential, success, and the institutions of society, explaining self-sovereign identity and decentralized AI models that will safeguard autonomy, control, and the future. For individuals, businesses, and policymakers alike, identic AI will reshape how we work, learn, and connect. Will we harness its power for a more equitable future, or will we let it shape us in ways we can't control? The future isn't written; it's ours to create.
