The Web We Weave Jeff Jarvis, 2024-10-08 A bold defense of the internet arguing attempts to fix and regulate it are often misguided essential reading for anyone who cares about the future of the internet Taylor Lorenz author of Extremely Online The internet stands accused of dividing us spying on us making us stupid and addicting our children In response the press and panicked politicians seek greater regulation and control which could ruin the web before we are finished building it Jeff Jarvis is convinced we can have a saner conversation about the internet Examining the web s past present and future he shows that many of the problems the media lays at the internet s door are the result of our own failings The internet did not make us hate we brought our bias bigotry and prejudice with us online That s why even well intentioned regulation will fail to fix hate speech and misinformation and may instead imperil the freedom of speech the internet affords to all Once we understand the internet for what it is a human network we can reclaim it from the nerds pundits and pols who are in charge now and turn our attention where it belongs to fostering community conversation and creativity online The Web We Weave offers an antidote to today s pessimism about the internet outlining a bold vision for a world with a web that works for all of us

The Smart Nonprofit Beth Kanter, Allison H. Fine, 2022-03-03 A pragmatic framework for nonprofit digital transformation that embraces the human centered nature of your organization The Smart Nonprofit turns the page on an era of frantic busyness and scarcity mindsets to one in which nonprofit organizations have the time to think and plan and even dream The Smart Nonprofit offers a roadmap for the once in a generation opportunity to remake work and accelerate positive social change It comes from understanding how to use smart tech strategically ethically and well Smart tech does rote tasks like filling out expense reports and identifying prospective donors However it is also beginning to do very human things like screening

applicants for jobs and social services while paying forward historic biases Beth Kanter and Allison Fine elegantly outline the ways smart nonprofits must stay human centered and root out embedded bias in order to success at the compassionate and creative work that only humans can and should do

Four Battlegrounds Paul Scharre, 2023-02-28 An NPR 2023 Books We Love Pick One of the Next Big Idea Club's Must Read Books An invaluable primer to arguably the most important driver of change for our future P W Singer author of *Burn In* An award winning defense expert tells the story of today's great power rivalry the struggle to control artificial intelligence A new industrial revolution has begun Like mechanization or electricity before it artificial intelligence will touch every aspect of our lives and cause profound disruptions in the balance of global power especially among the AI superpowers China the United States and Europe Autonomous weapons expert Paul Scharre takes readers inside the fierce competition to develop and implement this game changing technology and dominate the future Four Battlegrounds argues that four key elements define this struggle data computing power talent and institutions Data is a vital resource like coal or oil but it must be collected and refined Advanced computer chips are the essence of computing power control over chip supply chains grants leverage over rivals Talent is about people which country attracts the best researchers and most advanced technology companies The fourth battlefield is maybe the most critical the ultimate global leader in AI will have institutions that effectively incorporate AI into their economy society and especially their military Scharre's account surges with futuristic technology He explores the ways AI systems are already discovering new strategies via millions of war game simulations developing combat tactics better than any human tracking billions of people using biometrics and subtly controlling information with secret algorithms He visits China's National Team of leading AI companies to show the chilling synergy between China's government private sector and surveillance state He interviews Pentagon leadership and tours U S Defense Department offices in Silicon Valley revealing deep tensions between the military and tech giants who control data chips and talent Yet he concludes that those tensions inherent to our democratic system create resilience and resistance to autocracy in the face of overwhelmingly powerful technology Engaging and direct Four Battlegrounds offers a vivid picture of how AI is transforming warfare global security and the future of human freedom and what it will take for democracies to remain at the forefront of the world order
