Class And Its Others:

Class and Its Others J. K. Gibson-Graham, Stephen A. Resnick, Richard D. Wolff, 2000 A surprising and innovative look at class that proposes new approaches to this important topic While references to gender race and class are everywhere in social theory class has not received the kind of theoretical and empirical attention accorded to gender and race A welcome and much needed corrective this book offers a novel theoretical approach to class and an active practice of class analysis The authors offer new and compelling ways to look at class through examinations of such topics as sex work the experiences of African American women as domestic laborers and blue and white collar workers Their work acknowledges that individuals may participate in various class relations at one moment or over time and that class identities are multiple and changing interacting with other aspects of identity in contingent and unpredictable ways The essays in the book focus on class difference class transformation and change and on the intersection of class race gender sexuality and other dimensions of identity They find class in seemingly unlikely places in households parent child relationships and self employment and locate class politics on the interpersonal level as well as at the level of enterprises communities and nations Taken together they will prompt a rethinking of class and class subjectivity that will expand social theory Contributors Enid Arvidson U of Texas Arlington Jenny Cameron Monash U Australia Harriet Fraad Janet Hotch Susan Jahoda U of Massachusetts Amherst Amitava Kumar U of Florida Cecilia Marie Rio Jacquelyn Southern Marjolein van der Veen
