## **Classical Tradition From The Middle Ages To The Present:**

The Classical Tradition Michael Silk, Ingo Gildenhard, Rosemary Barrow, 2017-11-06 Reorganizes the field and challenges our preconceptions in both familiar areas and in disciplines that are not usually treated in studies on the classical tradition. A must read. Craig Kallendorf, Texas A&M, the role of translation, the intricate relationship of pagan and Christian, the ideological implications of the classical tradition, the interplay between the classical tradition and the histories of scholarship and education, the relation between high and low culture, and the myriad complex relationships, comparative, contrastive, and interactive between art, literature, and thought themselves. Authoritative and accessible. *The Classical Tradition: Art, Literature, Thought* offers new insights into the powerful legacy of the ancient world from the Middle Ages and the Renaissance to the present day.

Medieval Philosophy and the Classical Tradition John Inglis, 2005-10-09 An initial chapter on the history of Islamic philosophy sets the stage for sixteen articles on issues across the three traditions. The goal is to see the Islamic tradition in its own richness and complexity as the context of most Jewish intellectual work.

God and History in the Early Medieval West Robert A. H. Evans, 2025-08-01 While virtually all early medieval historians wrote about God, they did not do so in the same way. Rather than taking their comments about God at face value, then, as has been the case in much work on medieval history writing, they are deserving of closer scrutiny with implications not simply for how we understand the key narrative sources for early medieval history but also the cultures in which they originated. Seeking to fill this historiographical gap, this book explores through the prolific writing of historians in the Carolingian Empire how historians in early medieval societies thought about God and what this meant for themselves and their audiences. It argues that although Carolingian historians wrote about God's agency with tremendous literary subtlety while reflecting complex theological ideas and attempting to intervene into challenging political realities in many respects, they also broke with the example of early Christian historians from Late Antiquity, which demonstrates that writing about God was neither a uniform nor inevitable part of early medieval history writing. As well as yielding new insights into the nature of these crucial primary sources, this analysis helps to provide an overdue examination of the complex relationship between religion and history writing in early medieval societies. The book demonstrates that comments about God cannot be reduced to mere political propaganda or even moralistic encouragements for early medieval Christians to lead better lives. Instead, it argues that these historians sought to communicate a robust theology of divine activity which was relevant and useful for those involved in the often threatening world of Carolingian public life.

**Latin Classics in Medieval Hungary** Előd Némekényi, 2004-01-01 The first comprehensive study on the influence of Latin classical texts and traditions in medieval Hungary based on philological and historical analysis of eleventh-century sources. The author proves that the Latin classics had a stronger impact on the formation of Latin literacy in medieval Hungary than it has been acknowledged before.
