**Global Perspective on Issues and Trends in Educational Translanguaging** Bautista, Jude Cañero, Kim, Jean, 2025-05-29 The growing superdiversity around the world now appears to be the norm In traditional English speaking inner circle nations it is becoming increasingly rare to find classrooms with students who come from monocultural and

monolingual backgrounds However teaching practices remain based on Anglocentric standards and perspectives even when most of the English speakers in the world are no longer just the monolingual speakers of the language Research in bilingualism and multilingualism reverberate the potential of translanguaging as a pedagogical practice This is to leverage all the linguistic cultural and semiotic resources of learners so that they can actively engage in the language literacy and content area learning processes in the classroom However even though it has gained ground in theory and research it has not been upheld in instructional practice especially in the Anglophone nations While some regions view translanguaging as a pathway to educational justice others face barriers such as limited resources administrative constraints or lack of teacher training Despite its promise concerns remain around the selective use of languages and the risk of reinforcing existing linguistic hierarchies Global Perspective on Issues and Trends in Educational Translanguaging explores translanguaging pedagogies from both monolingual English speaking contexts and multilingual and multicultural contexts It examines a monolingual multilingual pairing of theoretical research and practical perspectives from around the world assessing how translanguaging pedagogies are practiced and researched worldwide This book covers topics such as indigenous studies migrant learners and pedagogy and is a useful resource for educators language experts academicians researchers and scientists

**AI-Powered Productivity** Dr. Asma Asfour, 2024-07-29 This book AI Powered Productivity aims to provide a guide to understanding utilizing AI and generative tools in various professional settings The primary purpose of this book is to offer readers a deep dive into the concepts tools and practices that define the current AI landscape From foundational principles to advanced applications this book is structured to cater to both beginners and professionals looking to enhance their knowledge and skills in AI This book is divided into nine chapters each focusing on a specific aspect of AI and its practical applications Chapter 1 introduces the basic concepts of AI its impact on various sectors and key factors driving its rapid advancement along with an overview of generative AI tools Chapter 2 delves into large language models like ChatGPT Google Gemini Claude Microsoft's Turing NLG and Facebook's BlenderBot exploring their integration with multimodal technologies and their effects on professional productivity Chapter 3 offers a practical guide to mastering LLM prompting and customization including tutorials on crafting effective prompts and advanced techniques as well as real world examples of AI applications Chapter 4 examines how AI can enhance individual productivity focusing on professional and personal benefits ethical use and future trends Chapter 5 addresses data driven decision making covering data analysis techniques AI in trend identification consumer behavior analysis strategic planning and product development Chapter 6 discusses strategic and ethical considerations of AI including AI feasibility tool selection multimodal workflows and best practices for ethical AI development and deployment Chapter 7 highlights the role of AI in transforming training and professional development covering structured training programs continuous learning initiatives and fostering a culture of innovation and experimentation Chapter 8 provides a guide to successfully implementing AI in organizations discussing team composition
