A Beginner's Guide to Introduce Artificial Intelligence in Teaching and Learning Muralidhar Kurni, Mujeeb Shaik Mohammed, Srinivasa K G, 2023-06-28 This book reimagines education in today's Artificial Intelligence AI world and the Fourth Industrial Revolution. Artificial intelligence will drastically affect every industry and sector, and education is no exception. This book aims at how AI may impact the teaching and learning process in education. This book is designed to demystify AI for teachers and learners. This book will help improve education and support institutions in the phenomena of the emergence of AI in teaching and learning. This book presents a comprehensive study of how AI improves teaching and learning from AI-based learning platforms to AI-assisted proctored examinations. This book provides educators, learners, and administrators on how AI makes sense in their everyday practice. Describing the application of AI in ten key aspects, this comprehensive volume prepares educational leaders, designers, researchers, and policymakers to effectively rethink the teaching and learning process and environments that students need to thrive. The readers of this book never fall behind the fast pace and promising innovations of today's most advanced learning technology. **The Parent-School Board Feuds**

Gerard Giordano, 2024-10-02 During the COVID-19 pandemic, parents were able to observe their children in online classes. They were surprised by classroom discussions and assignments related to gender, race, ethnicity, and religion, along with the policies that were guiding curricula, tests, technology, athletics, discipline, safety, transportation, funding, and numerous other aspects of schools. Parents began giving their advice to their school boards, but when they were ignored, they disrupted meetings, wrote editorials, created blogs, staged rallies, and lobbied state officials. They were hoping to attract media attention and acquire political power, and were stunned by their success. **The Parent School Board Feuds: Essential Steps by Parents to Improve Schools** recounts parent-school board feuding about controversial classroom topics such as gender and race, their disagreements about school policies including those affecting tests, technology, athletics, and discipline, and the impact that parents had during the pandemic and continue to have today. **The Power of Learning** Meredith Premium Publishing, 2021

Innovation and Experiential Learning in Academic Libraries Sarah Nagle, Elias Tzoc, 2022-03-15 As technology advances and the skills required for the future workforce continue to change rapidly, academic libraries have begun to expand the definition of information literacy and the type of library services they provide to better prepare students for the constantly developing world they will face upon graduation. More than teaching the newest technologies, information literacy is expanding to help students develop enduring skills such as critical thinking, creativity, problem solving, communication, teamwork, and more. **Innovation and Experiential Learning in Academic Libraries: Meeting the Needs of 21st Century Students** addresses the multitude of ways that academic librarians are collaborating with faculty and helping students develop these enduring skills by developing and integrating active and experiential learning approaches into teaching activities. This book is divided into three sections. The first section explores the role that library leaders play in
