future isn't written. It's ours to create. **Only Humans Need Apply** Thomas H. Davenport, Julia Kirby, 2016-05-24 An invigorating thought provoking and positive look at the rise of automation that explores how professionals across industries can find sustainable careers in the near future. Nearly half of all working Americans could risk losing their jobs because of technology. It's not only blue collar jobs at stake. Millions of educated knowledge workers, writers, paralegals, assistants, medical technicians are threatened by accelerating advances in artificial intelligence. The industrial revolution shifted workers from farms to factories. In the first era of automation, machines relieved humans of manually exhausting work. Today, Era Two of automation continues to wash across the entire services based economy that has replaced jobs in agriculture and manufacturing. Era Three and the rise of AI is dawning. Smart computers are demonstrating they are capable of making better decisions than humans. Brilliant technologies can now decide, learn, predict, and even comprehend much faster and more accurately than the human brain, and their progress is accelerating. Where will this leave lawyers, nurses, teachers, and editors? In **Only Humans Need Apply**, Thomas Hayes Davenport and Julia Kirby reframe the conversation about automation, arguing that the future of increased productivity and business success isn't either human or machine. It's both. The key is augmentation: utilizing technology to help humans work better, smarter, and faster. Instead of viewing these machines as competitive interlopers, we can see them as partners and collaborators in creative problem solving as we move into the next era. The choice is ours. *AI*, 2005 *Black Issues in Higher Education*, 2003-02 *AI Magazine*, 1990 *Black Enterprise*, 2002 *The New York Times Magazine*, 1998 *Veterinary Technician*, 2005 *PC World*, 2001

Questland Carrie Vaughn, 2021-06-22 Questland is a thrill ride. Richly imagined, action-packed, maximum fun. Charles Yu, New York Times bestselling author of *Interior Chinatown*. YOU FIND YOURSELF IN A MAZE FULL OF TWISTY PASSAGES. Literature professor Dr. Addie Cox is living a happy if sheltered life in her ivory tower when Harris Lang, the famously eccentric billionaire tech genius, offers her an unusual job. He wants her to guide a mercenary strike team sent to infiltrate his island retreat off the northwest coast of the United States. Addie is puzzled by her role on the mission until she understands what Lang has built: Insula Mirabilis, an isolated resort where tourists will one day pay big bucks for a convincing high-tech powered fantasy world experience complete with dragons, unicorns, and yes, magic. Unfortunately, one of the island's employees has gone rogue and activated an invisible force shield that has cut off all outside communication. A Coast Guard cutter attempting to pass through the shield has been destroyed. Suspicion rests on Dominic Brand, the project's head designer, and Addie Cox's ex-boyfriend. Lang has tasked Addie and the mercenary team with taking back control of the island at any cost. But Addie is wrestling demons of her own, and not the fantastical kind. Now she must navigate the deadly traps of Insula Mirabilis as well as her own past trauma. And no d20, however lucky, can help Addie make this saving throw. Gamers rejoice! Carrie Vaughn has conjured up a fun and fast-paced story filled with elves, d20s, and Monty Python riffs.
