**Digital Nomad Nation** Carlos Grider, 2025-09-17. What if the next great nation had no borders, no government and no fixed land, just a shared identity and a global movement? In *Digital Nomad Nation*, Carlos Grider explores how millions are unknowingly creating the first digital country without borders, governments or fixed territories, one that exists entirely online yet spans the globe. Today, over 35 million digital nomads live, work and move freely across borders, creating a decentralized nation unlike anything the world has seen. And what does it mean for the future of work, travel and global society? This groundbreaking investigation explores how millions are leaving traditional careers behind to design their dream lives on their own terms. Blending sociological analysis, travel memoir and cultural exploration, Grider reveals the 1997 prophecy that predicted the rise of digital nomads.
