Tension on the String... Mark R. Baker, 2012-10-08 There are those among us hunters who revel in the minimalistic pursuit of wild animals using the most rudimentary of tools and seeking out the whole of the experience up close and personal and as intimately involved with our prey as we possibly can be This experience rewards us with the greatest sense of accomplishment and challenge and connects us directly with our forefathers and ancient pasts It too cements our admiration and awe for the wild places and animals we share this journey with along the way Classic Bowhunting is our vehicle in this journey a completely different pathway of regression rather than the technological domination over mother nature and our inadequacies in seeking and taking our prey This acceptance of the challenges enhances our immersion and participation into the wild and natural world and replenishes our spirit Enjoy adventures with real stick and string appeal in some of the wildest country in North America

Enigma: An Interpretative Commentary of Revelation Dr. Nathan Ogan, 2019-01-16 This has been offered to the reader as if to say that from the very outset any study of Revelation that is done or offered without the direct application of Jesus teaching specifically His sermon on the Mount of Olives is incomplete at best The argument that God conclusively broadened His redemptive purpose beginning with the Jewish people then spread to all races as promised in Matthew 28:19 rings true in Revelation when understood in the context of what Jesus taught What's more the development of temple based worship into a simpler spiritual based worship as expected in John 4:21-24 is equally difficult to ignore from what appears to have been

fulfilled in the prophecy of Revelation as predicted by Jesus in His Mount of Olives sermon Shaping the Sierra Timothy P. Duane,1999-06-30 The rural west is at a crossroads and the Sierra Nevada is at the center of this social and economic change The Sierra Nevada landscape has always been valued for its bounty of natural resource commodities but new residents and an ever growing flood of tourists to the area have transformed the relationship between the region s nature and its culture In an engaging narrative that melds the personal with the professional Timothy P Duane who grew up in the area documents the impact of rapid population growth on the culture economy and ecology of the Sierra Nevada since the late 1960s He also recommends innovative policies for mitigating the negative effects of future population growth in this spectacular but threatened region as well as throughout the rural west Today the primary social and economic values of the Sierra Nevada landscape are in the amenities and ecological services provided by its wildlands and functioning ecosystems Duane shows how further unfettered population growth threatens the very values which have made the Sierra Nevada a desirable place to live and work A new approach to land use planning resource management and local economic development one that recognizes the emerging values of the landscape is necessary in order to achieve sustainable development Duane claims Weaving personal experience with outstanding scholarship he shows how such an approach must explicitly recognize the importance of values and the application of an environmental land ethic to future development in the area **The**
