**Black Theology and the Menace of Racial Apocalypse** Cyril Orji, 2025-04-30. Racism evolves. Black theology must be adaptable. For this reason, *Black Theology and the Menace of Racial Apocalypse* argues that racism must take centre stage in Black theology because racism is an existential dread that inevitably confronts the Black person in their existential situation. This book unfolds in two interwoven steps. First, it delves into the complex history of Black theology, examining its development across its first, second, and third waves. This critical study exposites the disconcerting idea that something is missing and that this something makes Black theology seem a little deficient, as noted in the pioneering works of James Baldwin and other contemporary thinkers challenging the hesitation to engage with ideas outside Black experience. The second step draws from multidisciplinary sources, including brain research on cognitive bias and psychological works on implicit bias and microaggressions. Effectively utilizing the methodological work of Bernard Lonergan, the book argues that incorporating white sources can enhance Black theology's articulation against racism. In doing so, the book demonstrates how this interpretative mechanism can help overcome societal ideological differences as well as help meaningfully address the ever-evolving problem of racism for Christian theology.

**Evangelical Ethics** David P. Gushee, Isaac B. Sharp, 2015-08-24. Just as it is impossible to understand the American religious landscape without some familiarity with evangelicalism, one cannot grasp the shape of contemporary Christian ethics without knowing the contributions of evangelical Protestants. This newest addition to the Library of Theological Ethics series begins by examining the core dynamic with which all evangelical ethics grapples: belief in an authoritative, inspired, and unchanging biblical text on the one hand, and engagement with a rapidly evolving and increasingly post-Christian culture on the other. It explores the different roles that scholars and popular figures have played in forming evangelicals' understandings of Christian ethics. And it draws together the contributions of both senior and emerging figures in painting a portrait of this diverse, vibrant, and challenging theological and ethical tradition. This book represents the breadth of evangelical ethical voices, demonstrating that evangelical ethics involves nuance and theological insight that far transcend any political agenda. Contributors include David P. Gushee, Carl F. H. Henry, Jennifer McBride, Stephen Charles Mott, William E. Pannell, John Perkins, Soong Chan Rah, Gabriel Salguero, Francis Schaeffer, Ron Sider, Helene Slessarev, Jamir Glen H. Stassen, Eldin Villafa, Allen Verhey, Jim Wallis, Nicholas Wolterstorff, and John Howard Yoder. The Library of Theological Ethics series focuses on what it means to think theologically and ethically. It presents a selection of important and otherwise unavailable texts, English language texts and translations that have fallen out of print, new translations, and collections of significant statements about problems and themes of special importance in an
