Call to Revolution Charles B. Maurer,1971      *Call to Revolution* Charles B. Maurer,1971      **Anarchism in the Dramas of Ernst Toller** Michael Ossar,1980-06-30 This study shows how politics and art intermingled in the life and works of one of the most renowned playwrights of German Expressionism a man who was in many senses paradigmatic of the non communist Left in the Weimar Republic Toller sought to preserve the sanctity of the individual against collectivist assaults from the Right and from the Left but at the same time to meet the needs of a complex society Ossar demonstrates that the playwright arrived at solutions that were anarchist in nature deriving from a long European tradition This is the first in depth book length study of Toller and his plays published in English      *The Bloomsbury Companion to Anarchism* Ruth Kinna,2012-06-28 The Bloomsbury Companion to Anarchism is a comprehensive reference work to support research in anarchism The book considers the different approaches to anarchism as an ideology and explains the development of anarchist studies from the early twentieth century to the present day It is unique in that it highlights the relationship between theory and practice pays special attention to methodology presents non English works key terms and concepts and discusses new directions for the field Focusing on the contemporary movement the work outlines significant shifts in the study of anarchist ideas and explores recent debates The Companion will appeal to scholars in this growing field whether they are interested in the general study of anarchism or in more specific areas Featuring the work of key scholars The Bloomsbury Companion to Anarchism will be an essential tool for both the scholar and the activist      *Anarchist Portraits* Paul Avrich,2020-11-10 From the celebrated Russian intellectuals Michael Bakunin and Peter Kropotkin to the little known Australian bootmaker and radical speaker J W Fleming this book probes the lives and personalities of representative anarchists      **Political Economy from Below** Rob Knowles,2017-07-05 Communitarian anarchism is a generic form of socialism that denies the need for a state or any other authority over the individual from above and which requires absolute belief that the individual cannot exist outside of a community of others This book suggests that the communitarian anarchists of the nineteenth century developed and articulated a distinct tradition of economic thought The period of this study begins with the first major writing of the French communitarian anarchist Pierre Joseph Proudhon in 1840 and ends with the temporary burial of anarchist theorizing at the beginning of the First World War in 1914 However he tradition of communitarian anarchist economic thought did not end in 1914 The economic thought explored in this book provides a fresh perception of the fragmentation evident in many societies today especially where there is a substantial informal economy      *Original Dwelling Place* Robert Aitken,1997-06-01 In this collection of twenty three essays Robert Aitken retraces the origins of American Zen Buddhism and provides readings of influential texts Reflecting on death on marriage and on Zen practice Aitken always points out the path to pleasure in the everyday dewdrop world There is a fine art to presenting complex ideas with simplicity and insight in a manner that both shepherds and inspires Robert Aitken s Original Dwelling

Place Zen Buddhist Essays succeeds in doing just this offering twenty three essays from Americas senior Zen roshi and author of the bestselling groundbreaking primer Taking the Path of Zen Just as Taking the Path of Zen is the definitive handbook for Zen practice the essays gathered in Original Dwelling Place are essential for the light they shed on Aitken Roshi s own journey and the effect he has had on American Zen Buddhism Gathered here are essays about the Zen texts Aitken has studied with avidity and close attention throughout the years texts that were early and lasting influences
