Challenge Of Foreign Aid Policies Problem:

New Challenges for Japan's Official Development Assistance (ODA) Policy Fumitaka Furuoka, 2006 **Social Science and Policy Challenges** Georgios Papanagnou, 2011-01-01 Producing scientific knowledge that can inform solutions and guide policy making is one of the most important functions of social science. Nonetheless, if social science is to become more relevant and influential so as to impact on the drawing and execution of policy, certain measures need to be taken to narrow its distance from the policy sphere. This decision is less obvious than it seems. Both research and experience have proved that policy making is a complex, often sub-rational, interactive process that involves a wide range of actors such as decision makers, bureaucrats, researchers, organized interests, citizens and civil society representatives and research brokers. In addition, social science often needs to defend both its relevance to policy and its own scientific status. Moving away from instrumental visions of the link between social research and policy, this collective volume aims to highlight the more constructed nature of the use of social knowledge.

Canada and the Challenges of International Development and Globalization Mahmoud Masaeli, Lauchlan T. Munro, 2018-08-28 What are Canada's various links with international development and globalization? They extend beyond foreign aid to diplomacy, trade, finance, aid, immigration, military intervention, both peacekeeping and combat roles, membership in a variety of international organizations, relations with indigenous peoples and people-to-people links. This multi-disciplinary and multi-author textbook designed for first or second year students introduces the main concepts, theories and perspectives that have shaped Canada's interactions with developing countries in a globalizing world. It starts by considering Canada as a case study in international development and globalization. It examines Canada's diplomatic, economic, military, social, immigration and aid policies, how they have changed over time and how they have interacted with each other and with Canada's treatment of Indigenous peoples. The book presents economic, political and cultural dimensions of the process of globalization and the ways they affect Canada. It examines the public institutions, private sector and civil society organizations in Canada and explores the moral imperatives behind Canadian international policy. Finally, it examines current issues including Canada's promotion of human rights, democracy, good governance, support to the private sector and relations with fragile and conflict-affected states and the emerging economies.
