**The Archaeology of Art in the American Southwest** Marit K. Munson, 2011-04-16 Archaeologists seldom study ancient art even though art is fundamental to the human experience The Archaeology of Art in the American Southwest argues that archaeologists should study ancient artifacts as artwork as applying the term art to the past raises new questions about artists audiences and the works of art themselves Munson proposes that studies of ancient artwork be based on standard archaeological approaches to material culture framed by theoretical insights of disciplines such as art history visual studies and psychology Using examples drawn from the American Southwest The Archaeology of Art in the American Southwest discusses artistic practice in ancestral Pueblo and Mimbres ceramics and the implications of context and accessibility for the audiences of painted murals and rock art Studies of Hohokam figurines and rock art illustrate methods for studying ancient images while the aesthetics of ancient art are suggested by work on ceramics and kivas from Chaco Canyon This book will be of interest to archaeologists working in the Southwest who want to broaden their perspective on the past It will also appeal to archaeologists in other parts of the world and to anthropologists art historians and those who are intrigued by the material world aesthetics and the visual

**Our Common Denominator** Christoph Antweiler, 2016-04-01 Since the politicization of anthropology in the 1970s most anthropologists have been reluctant to approach the topic of universals that is phenomena that occur regularly in all known human societies In this volume Christoph Antweiler reasserts the importance of these cross cultural commonalities for anthropological research and for life and co existence beyond the academy The question presented here is how anthropology can help us approach humanity in its entirety understanding the world less as a globe with an emphasis on differences but as a planet from a vantage point open to commonalities

**Africa and Its Significant Others**, 2016-08-09 When did the intimate dialogue between Africa Europe and the Americas begin Looking back it seems as if these three continents have always been each other's significant others Europe created its own modern identity by using Africa as a mirror but Africans traveled to Europe and America long before the European age of discovery and African cultures can be said to lie at the root of European culture This intertwining has become ever more visible Nowadays Africa emerges as a highly visible presence in the Americas and African American styles capture Europe's youth many of whom are of North African descent This entanglement however remains both productive and destructive The continental economies are intertwined in ways disastrous for Africa and African knowledge is all too often exported and translated for US and European

scholarly aims which increases the intercontinental knowledge gap This volume proposes a fresh look at the vigorous and painful but inescapable relationships between these significant others It does so as a gesture of gratitude and respect to one of the pioneering figures in this field Dutch Africanist and literary scholar Mineke Schipper who is taking her leave from her chair in Intercultural Literary Studies at the University of Leiden Where have the past four decades of African studies brought us What is the present day state of this intercontinental dialogue Sixteen of Mineke s colleagues and friends in Europe Africa and the Americas look back and assess the relations and debates between Africa Europe America Ann Adams Ernst van Alphen Mieke Bal Liesbeth Bekers Wilfried van Damme Ariel Dorfman Peter Geschiere Kathleen Gyssels Isabel Hoving Frans Willem Korsten Babacar M Baye Harry Olufunwa Ankie Peypers Steven Shankman Miriam Tlali and Chantal Zabus write about the place of Africa in today s African Diaspora about what sisterhood between African and European women really means about the drawbacks of an overly strong focus on culture in debates about Africa about Europe s reluctance to see Africa as other than its mirror or its playing field about the images of Africans in seventeenth century Dutch writing about genital excision the flaunting of the African female body and the new self writing about new ways to look at classic African novels and about the invigorating disturbing political art of intercultural reading     **Smoking Mirror** Richard L. Anderson, 2015-07-11 In this epic historical adventure Orlando de Bolonia reaches the steamy coast of Vera Cruz New Spain ten years after the Conquest as a relatively innocent Franciscan friar He has come to the Americas to seek the meaning of a troubling vision he once had of a sacrifice in front of a crimson pyramid Orlando does gain converts to the Faith but because of his sensual nature and restless curiosity his own transformation is even more radical He takes an Indian lover Itzel and he samples sinicuichi the hallucinogenic sun opener tea The Inquisition imprisons Orlando for supporting the Indians in their struggles against powerful Spanish landholders at the time of the Mixton Rebellion After his release Orlando quits the Franciscan Order to grow chilis on a flower covered mountain overlooking Lake Chapala Peace still eludes him though because his Indian friends require a sacrifice to save their world The secret to helping them lies with Black Tezcatlipoca the god of the Smoking Mirror     *Contemporary Youth Culture* Shirley R.
