adaptations Extending that theory further as entire systems of political economy capitalism socialism and hunter gatherer subsistence consist of multiple customs and institutions it follows that an entire political economic system can likewise be classified as an evolutionary adaptation Considering that liberal republican capitalism has insofar as the system has been implemented done more to reduce the mortality rate and secure human fertility than other models of societal structure it stands to reason that liberal republican capitalism is itself a beneficent evolutionary adaptation Moreover as essential tenets of Rand's Objectivism individualism observation based rationality and peaceable self interest have been integral to the development of the capitalist ecosystem important aspects of the Objectivism are worthwhile adaptations as well This book shall uphold that position as well as combat critiques by evolutionary psychologists and environmentalists who denounce capitalism as self destructive Instead capitalism is the most sustainable and fairest political model This book argues that of all the philosophies Objectivism is the one that is most fit for humanity

Case Studies in Interpersonal Communication Dawn O. Braithwaite, Julia T. Wood, 2000. The many narrative cases in this book offer dramatic real life snapshots of interpersonal theory in action. Written by established communication scholars and reflecting carefully conducted research, each case helps you apply abstract principles to specific situations, people, and relationships. As you read these cases, you will also learn to appreciate how multiple communication dynamics work together to shape what happens in human interactions. For example, a case focusing on self-disclosure also gives you insights into such issues as timing, context, and style of communication. And as you identify patterns revealed in the cases, you will develop the ability to detect these patterns in your own interactions and ultimately make more informed choices about which patterns to foster and avoid in your interpersonal relationships.
