Marketing is an essential function of any business bridging the gap between products and consumers In today s dynamic business environment understanding the principles of marketing is crucial for students aspiring to build careers in commerce and management The National Education Policy NEP 2020 emphasizes a multidisciplinary and practical approach to learning encouraging students to develop analytical and decision making skills in real world business scenarios Keeping this in mind Principles of Marketing has been designed to cater to the academic needs of B Com 2nd Semester students of Gauhati University while aligning with the latest developments in marketing strategies and practices This book provides a comprehensive yet simplified approach to the fundamental concepts of marketing ensuring clarity and application oriented learning The content is structured into five well defined units covering key aspects of marketing Unit I Introduction This unit lays the foundation for marketing by exploring its nature scope and importance It traces the evolution of marketing and differentiates it from selling Additionally it introduces the marketing mix and examines the marketing environment discussing its various components including economic demographic technological natural socio cultural and legal factors Unit II Consumer Behaviour A marketer s success largely depends on understanding consumer behavior This unit explains the nature and importance of consumer behavior the buying decision process and the various factors that influence consumer choices It further explores market segmentation targeting and positioning STP and distinguishes between product differentiation and market segmentation Unit III Product This unit focuses on product concepts and classifications along with the importance of product mix branding packaging and labeling It also discusses product support services the product life cycle and the new product development process The consumer adoption process is explained to provide insights into how

consumers accept and use new products

Unit IV Pricing and Distribution Pricing is a crucial aspect of marketing strategy. This unit delves into the significance of pricing factors affecting price determination and various pricing policies and strategies. It also covers distribution channels, their types, functions, and factors affecting their selection. Special attention is given to wholesaling, retailing, e-tailing, and physical distribution.

Unit V Promotion and Recent Developments in Marketing This unit discusses the nature and importance of promotion, the communication process, and the different types of promotion, including advertising, personal selling, public relations, and sales promotion. It also examines the promotion mix and the factors affecting promotional decisions. Additionally, this unit introduces students to emerging trends in marketing, such as social marketing, online marketing, direct marketing, services marketing, green marketing, rural marketing, and consumerism.

Throughout the book, efforts have been made to present the concepts in a structured and student-friendly manner. The book includes real-life examples, case studies, and self-assessment questions to encourage critical thinking and practical application of marketing concepts. This book is expected to serve as a valuable resource for students, educators, and aspiring marketers. We hope it fosters a deeper understanding of marketing principles and equips students with the knowledge required to navigate the ever-evolving marketing landscape.

Consumer Behavior Syed Akhter, David Loudon, Albert Della Bitta, 2023-03-11. The sixth edition explains key consumer behavior concepts and theories drawing on the latest research in psychology, economics, and sociology. The new lead author Syed Akhter, Marquette University, has completely updated 6e to deliver a more concise alternative, approximately 450 pages, to the old style exhaustive encyclopedic approach of the major competitors. 6e covers the important areas CB instructors would likely want covered but omits material less essential to the student's education in consumer behavior. The book's emphasis on the practical application of the chapter material meets students' bias for retaining that which can help them become successful in a marketing career. It presents a Strategy Box in each chapter that focuses on questions related to consumer behavior research and findings, challenging students to think critically and answer strategic questions as well as numerous cross-cultural examples to illustrate concepts of consumer behavior and make them meaningful. End-of-chapter applied sections, Putting Theory into Practice, offer students additional materials to dig deeper into chapter topics and improve decision-making skills.
