Terrorism, the Worker and the City Luke Howie, 2017-11-28 Soon after watching the twin towers falling in New York some of those with business responsibilities were already asking themselves whether people would be willing to work in tall

buildings ever again Is work too risky How can people be expected to attend work in what might now be seen as precarious and vulnerable workplaces and cities Although thankfully large scale terrorist attacks are infrequent the world s cities and the businesses to which they are home have been put on notice that it can come to any place at any time In *Terrorism the Worker and the City* Luke Howie considers what steps managers and employees can and should take to protect their businesses from such an amorphous and indefinable threat Deftly combining theoretical insight with empirical research he reveals how despite an appearance of business as usual fear anxiety and suspicion permeate workplaces even in cities that may not be at the top of any terrorist group s target list Using the Australian city of Melbourne a cosmopolitan city and major business centre with nearly four million people as a metaphor for other such cities around the world Dr Howie s research has uncovered that even where they don t perceive a high level threat business managers who might face having to account for themselves to some post event Inquiry have taken action in consequence of the situation Often that action amounts to the introduction of what can be described as Simulated Security This cannot ever provide certain protection from terrorist attack but it may be the best we can reasonably do There is also evidence that it can be effective in terms of providing the reassurance to counter the terrorist objective of disrupting normal life through fear With its rigorous research compared with other more speculative works on this subject *Terrorism the Worker and the City* will appeal to city and business leaders and managers and security professionals as well as those in governmenta

Witnesses to Terror L. Howie,2012-08-29 This book argues that it is witnesses who are the targets of terrorism and that the question of whose witnessing counts and which stories are the most legitimate is of vital importance for understanding the meanings and consequences of contemporary terrorism

Terrorism, Risk, and the City Jon Coaffee,2003 The development of defensive strategies encompassing the fortification and privatization of the city has attracted significant attention during recent years and has become particularly relevant in the aftermath of September 11th Dealing with issues of risk security and the spatial restructuring of contemporary western cities this book examines how the perceived risk of terrorist attack led to changes in the physical form and institutional infrastructure of the city of London during the 1990s when the city was a prime terrorist target The book analyses how the various formal and informal strategies adopted in the

City attempted to reduce both the physical and financial risk of terrorism This was undertaken through a series of place specific security initiatives and risk management policies which led to increased fortification a substantial rise in terrorism insurance premiums and changing institutional relations at a variety of spatial scales It also argues that the security measures deployed were developed not in terms of an anti terrorist effort but in relation to the unintended by products of these approaches such as crime reduction and enhanced traffic management capabilities *Book Review Index Cumulation* Dana Ferguson,2005-09 Book Review Index provides quick access to reviews of books periodicals books on tape and electronic media representing a wide range of popular academic and professional interests The up to date coverage wide scope and inclusion of citations for both newly published and older materials make Book Review Index an exceptionally useful reference tool More than 600 publications are indexed including journals and national general interest publications and newspapers Book Review Index is available in a three issue subscription covering the current year or as an annual cumulation covering the past year *The British National Bibliography* Arthur James Wells,2004 *Industrial Management* ,1987 **Political Terrorism and Business** Yonah Alexander,Robert A.
