1949 an African American Baptist minister born in Texas made fifty four commercial recordings of his sermons on phonographs in Chicago On these recordings Nix presented vocal traditions and styles long associated with the southern rural Black church as he preached about self help racial uplift thrift and Christian values As southerners like Nix fled into cities in the North to escape the rampant racism in the South they contested whether or not African American vocal styles of singing and preaching that had emerged during the slavery era were appropriate for uplifting the race Specific vocal characteristics like those on Nix s recordings were linked to the image of the Old Negro by many African American leaders who favored adopting Europeanized vocal characteristics and musical repertoires into African American churches in order to uplift the modern New Negro citizen Through interviews with family members musical analyses of the sounds on Nix s recordings and examination of historical documents and relevant scholarship Terri Brinegar argues that the development of the phonograph in the 1920s afforded preachers like Nix the opportunity to present traditional Black vocal styles of the southern Black church as modern Black voices These vocal styles also influenced musical styles The moaning voice used by Nix and other ministers was a direct connection to the blues moan employed by many blues singers including Blind Willie Blind Lemon and Ma Rainey Both Reverend A W Nix and his brother W M Nix were an influence on the Father of Gospel Music Thomas A Dorsey The success of Nix s recorded sermons demonstrates the enduring values African Americans placed on traditional vocal practices

EVANGELICAL CHRISTENDOM, CHRISTIAN WORK, AND THE NEWS OF THE CHURCHES ,1877 **The General Baptist repository, and Missionary observer [afterw.] The General Baptist magazine repository and Missionary observer [afterw.] The General Baptist magazine** ,1876 *Herald of Gospel Liberty* Elias Smith,1903 Christian Science Sentinel ,1904 The Power of Mammon Curtis D. Johnson,2023-08-18 In The Power of Mammon Curtis D Johnson describes how the market economy and market related forces such as the media politics individualism and consumerism radically changed the nature of Baptist congregational life in New York State during three centuries Collectively these forces emphasized the importance of material wealth over everything else and these values penetrated the thinking of Baptist ministers and laypeople alike Beginning in the 1820s the pastorate turned into a profession the laity s influence diminished closeknit religious fellowships evolved into voluntary associations and evangelism became far less effective Men being the most engaged in the market secularized the more quickly and became less involved in church affairs By the 1870s male disengagement opened the door to increased female participation in church governance While scientific advances and religious pluralism also played a role the market and its related distractions were the primary forces behind the secularization of Baptist life The Power of Mammon is history from the ground up Unlike many denominational histories this book emphasizes congregational life and the importance of the laity This focus allows the reader to hear the voices of ordinary Baptists who argued over a host of issues Johnson deftly connects large social trends with exhaustive attention to archival material including numerous well chosen records preserved by forty two New York

churches These records include details related to membership discipline finance and institutional history Utilizing statistical analysis to achieve even greater clarity Johnson effectively bridges the gap between the particularity of church records and the broader history of New York s Baptist churches Johnson s narrative of Baptist history in New York will serve as a model for other regional studies and adds to our understanding of secularization and its impact on American religion **The Lookout for Christ and the Church** ,1903
