But They Spit, Scratch, and Swear! Mary Steiner Whelan, 2000 But They Spit, Scratch and Swear Mary Steiner Whelan, 2000 They spit They scratch They swear They talk back They kick They roll their eyes They challenge They throw things Discipline or behavior guidance is often the most difficult part of what teachers do especially for school age programs where there is often no curriculum and kids aren't getting graded But discipline is also the most important part of a program writes author trainer and former educator Mary Steiner Whelan It can open the world of possibilities that live inside children the possibility of self control competency self respect creativity integrity resiliency and self worth Or it can shut down a child's hope her empathy for others and her positive sense of self A survival guide to school age care But They Spit Scratch and Swear lists the do's and don'ts of discipline The book will help teachers with little experience in the field establish behavior guidance techniques and philosophies in their programs where there is less structure than school time and often more challenges with behavior Beginning with a brief examination of the history of school age care and the developmental issues facing the field the book also includes an array of exercises designed to foster a teacher's self knowledge as an integral part of learning how to discipline children Covering a variety of disciplinary issues from setting limits to giving children cool-downs the author's replacement for the punitive use of time-outs But They Spit Scratch and Swear is written to inspire teachers to face the struggles of discipline and the challenges of each and every child again and again The book urges that teachers do more than just memorize the rules for discipline and instead look inside to ask how each do or don't works in a particular situation
