Winer, James W. Anderson, 2013-05-13 Psychoanalysis and Women Volume 32 of The Annual of Psychoanalysis is a stunning reprise on theoretical developmental and clinical issues that have engaged analysts from Freud on It begins with clinical contributions by Joyce McDougall and Lynne Layton two theorists at the forefront of clinical work with women Jessica Benjamin Julia Kristeva and Ethel Spector Person from their respective vantage points all engage the issue of passivity which Freud tended to equate with femininity Employing a self psychological framework Christine Kieffer returns to the Oedipus complex and sheds new light on the typically Pyrrhic oedipal victory of little girls Section III broadens the historical context of contemporary theorizing about women by offering the personal reminiscences of Nancy Chodorow Carol Gilligan Brenda Solomon and Malkah Notman A final section dedicated to women who shared psychoanalysis features historical essays on Ida Bauer Freud's Dora Anna Freud Dorothy Burlingham Edith Jacobson and Therese Benedek along with Linda Hopkins's revealing interview of Marion Milner Of special note is Marian Tolpin's examination of three women Bauer Helene Deutsch and Anna Freud who helped shape Freud's notion of the female castration complex and Elisabeth Young Bruehl's exploration of how two women Anna Freud and Dorothy Burlingham developed parent infant observation Psychoanalysis and Women is an extraordinary chronicle of the distance traveled since Freud characterized women's sexual life as the dark continent The contributors vitalize a half century of theory with the lessons of biography and they broaden clinical sensibilities by drawing on recent developmental gender related and socio psychological research In doing so they attest to the ongoing reconfiguration of Freud's dark continent and show the psychoanalytic psychology of women to be very much a revolution in progress *Freud, Psychoanalysis, Social Theory* Fred Weinstein, 2001-01-01 Discusses the reasons for the decline of the cultural influence of psychoanalysis Masculine Interests Robert Lang, 2002 In the 1930s a band of smart and able young

Moral Wisdom and Good Lives John Kekes, 2018-10-18 In this profound and yet accessible book John Kekes discusses moral wisdom a virtue essential to living a morally good and personally satisfying life He advances a broad nontechnical argument that considers the adversities inherent in the human condition and assists in the achievement of good lives The possession of moral wisdom Kekes asserts is a matter of degree more of it makes lives better less makes them worse Exactly what is moral wisdom however and how should it be sought Ancient Greek and medieval Christian philosophers were centrally concerned with it By contrast modern Western sensibility doubts the existence of a moral order in reality and because we doubt it and have developed no alternatives we have grown dubious about the traditional idea of wisdom Kekes returns to the classical Greek sources of Western philosophy to argue for the contemporary significance of moral wisdom He develops a proposal that is eudaimonistic secular anthropocentric pluralistic individualistic and agonistic He understands moral wisdom as focusing on the human effort to create many different forms of good lives Although the approach is Aristotelian the author concentrates on formulating and defending a contemporary moral ideal The importance of this ideal he shows lies in increasing our ability to cope with life s adversities by improving our judgment In chapters on moral imagination self knowledge and moral depth Kekes calls attention to aspects of our inner life that have been neglected because of our cultural inattention to moral wisdom He discusses these inner processes through the tragedies of Sophocles which can inspire us with their enduring moral significance and help us to understand the importance of moral wisdom to living a good life

Miliora,2000 Narcissism the Family and Madness applies the constructs of psychoanalytic self psychology with a focus on narcissistic fantasies to the life and works of Eugene O'Neill The self psychological analysis of O'Neill's plays enables us to see how narcissism and violence are intertwined in dysfunctional families In many of the plays violence and madness erupt when characters lose the important emotional experience of having a sense of belonging to a home and family Another theme explored in the book is how family dynamics of a destructive nature contribute to individuals becoming chemically addicted In short the book addresses the important contemporary issues of dysfunctional families violence madness and addictions and shows how these themes derive from O'Neill's experiences growing up within an addicted family The Cumulative Book Index ,1997 A world list of books in the English language
