Debate In Tibetan Buddhism:

Debate in Tibetan Buddhism Daniel Perdue,1992 A clear and thorough exposition of the practice and theory of Buddhist logic and epistemology *Debate in Tibetan Buddhism* Daniel E. Perdue,1992-01-01 The practice and theory of Tibetan Buddhist logic and epistemology is the focus of this clear and thorough exposition Debate is the investigative technique used in Tibetan education to sharpen analytical capacities and convey philosophical concepts so it is essential to master its procedure Using a debate manual by Pur bu jok Jam ba gya tso 1825 1901 as his basis Daniel Perdue covers elementary debate and demonstrates its application to a variety of secular and religious educational contexts The translation is supplied with annotations on procedure and content drawn from Tibetan teachers expert in debate **The Course in Buddhist Reasoning and Debate** Daniel E. Perdue,2014-05-27 Buddhism is a wisdom tradition It asserts that we are liberated by the power of our own understanding The three purposes of Buddhist debate are to defeat your own and others misconceptions to establish your own correct view and to clear away objections to your view It is like the approach of a physician to remove what does not belong and to strengthen what does Thus for Buddhists reasoning and debate are not ends in themselves or idle intellectual speculation Rather they are used as one path to spiritual wellness taking practitioners closer to the health of liberation through these efforts to remove mistaken views and to understand and strengthen correct ones Reading and memorization are not enough Students must be able to verbalize their understanding and defend it under the pressure of cross examination This book teaches the basic analytical skills and procedures used in Buddhist debate It is based on the author s own practice and experiences gained in the debating courtyards of Tibetan monasteries in India and matured through years of leading popular university courses on the subject Sample debate exchanges show readers how to get started with the Buddhist style of analytical thinking to challenge and defend assertions Learning is supported by guided reflections practical advice and verbal exercises to be completed in practice with a partner By the end of the course readers will be able to engage in unscripted full fledged debates with a qualified partner about Buddhist characterizations and classifications of phenomena using the format and procedures of Buddhist debate Moreover these skills once mastered can then be applied to investigating the truth and falsity of views in any other subject *The Course in Buddhist Reasoning and Debate* Daniel Perdue,2014-04-22 Step by step lessons in building the skills needed to engage in Tibetan Buddhist philosophical debate and that have proved successful in the college classroom Debate is the investigative technique used in Tibetan education to sharpen analytical capacities and convey philosophical concepts Reading and memorization are not enough students must be able to verbalize their understanding and defend it under the pressure of fierce cross examination This book based on the author s successful undergraduate course in the subject trains readers to develop the analytical skills used in Tibetan style debate Making use of sample debate exchanges and definitions and classification systems drawn from Tibetan Buddhist debate manuals the book shows how to challenge and defend assertions made in the course of debate

countless audiences across the globe the Dalai Lama has tried to refashion Tibetan Buddhism into a modern religion compatible with empirical science and founded on principles of nonviolence and universal compassion but how exactly has this project affected monastic education in exile This pathbreaking study traces the career of the modern liberal subject in the Tibetan diaspora in India Focusing on monastic debate and disciplinary practices such as reprimand and corporal punishment Michael Lempert shows how violence makes monks into educated moral persons but in ways that trouble Tibetans who aspire to liberal ideals like individual autonomy and natural rights Based on ethnographic and linguistic fieldwork at monasteries in India and with close attention to the way monks interact Lempert details the craft of liberal mimicry He shows how efforts to act out liberal ideals partially fitfully and sometimes with acute ambivalence are part of a broader drama of eliciting sympathy from spectators in the West and enlisting their aid in Tibet's struggle with China Publisher's description *Introductory Debate in Tibetan Buddhism* Phur bu lcog byams pa rgya mtsho, 1976

Introductory Debate in Tibetan Buddhism Daniel Perdue, 1980 The Two Truths Debate Sonam Thakchoe, 2016-01-26 All lineages of Tibetan Buddhism today claim allegiance to the philosophy of the Middle Way the exposition of emptiness propounded by the second century Indian master Nagarjuna But not everyone interprets it the same way A major faultline runs through Tibetan Buddhism around the interpretation of what are called the two truths the deceptive truth of conventional appearances and the ultimate truth of emptiness An understanding of this faultline illuminates the beliefs that separate the Gelug descendents of Tsongkhapa from contemporary Dzogchen and Mahamudra adherents The Two Truths Debate digs into the debate of how the two truths are defined and how they are related by looking at two figures one on

either side of the faultline and shows how their philosophical positions have dramatic implications for how one approaches Buddhist practice and how one understands enlightenment itself Practice and Theory of Philosophical Debate in Tibetan Buddhism Daniel Elmo Perdue,1985 *Debate Primer Text 1* Tenzin Tharpa, This text is best viewed in pdf format
