Debating the War of Ideas Eric

Patterson, Eric D. Patterson, John Gallagher, 2009-12-15 The War of Ideas is being fought both within Islamic societies and between some Muslim voices and the West The War of Ideas is a struggle between moral claims political philosophies and historical interpretations that compete for assent within a society and across borders Like the ideological component of the Cold War the War of Ideas is about the fundamental principles of human society from the basis for law and structures of governance to gender relations and the nexus of religion and politics It is a global War the foes have resorted to arms to protect and promote their worldview This book brings together some of the most important voices from different partisan theoretical and religious perspectives to argue and forecast the next phase in the War of Ideas Debating War David

Lorenzo, 2015-08-14 What arguments have critics of American wars and interventions put forward and what arguments do they currently employ Thomas Jefferson Henry Thoreau John Calhoun the Anti Imperialist League Herbert Hoover Charles Lindbergh Martin Luther King Jr and Ron Paul among others have criticized proposals to intervene in other countries enter wars acquire foreign territory and engage in a forward defense posture Despite cogent objections they have also generally lost the argument Why do they lose This book provides answers to these questions through a survey of oppositional arguments over time augmented by the views of contemporary critics including those of Ron Paul Chalmers Johnson and Noam Chomsky Author David J Lorenzo demonstrates how and why a significant number of arguments are dismissed as irrelevant unpatriotic overly pessimistic or radically out of the mainstream Other lines of reasoning might provide a compelling critique of wars and interventions from a wide variety of perspectives and still lose Evaluating oppositional arguments in detail allows the reader to understand problems likely to be faced in the context of policy discussions to grasp important political differences and the potential for alliances among critics and ultimately to influence decision making and America's place in the international power structure

Great Debates in American History: The civil war; with an introduction by H. Watterson Marion Mills Miller, 1913

Debating War and Peace Jonathan Mermin, 1999-07-01

The First Amendment ideal of an independent press allows American journalists to present critical perspectives on government policies and actions but are the media independent of government in practice Here Jonathan Mermin demonstrates that when it comes to military intervention journalists over the past two decades have let the government itself set the terms and boundaries of foreign policy debate in the news Analyzing newspaper and television reporting of U S intervention in Grenada and Panama the bombing of Libya the Gulf War and U S actions in Somalia and Haiti he shows that if there is no debate over U S policy in Washington there is no debate in the news Journalists often criticize the execution of U S policy but fail to offer critical analysis of the policy itself if actors inside the government have not challenged it Mermin ultimately offers concrete evidence of outside Washington perspectives that could have been reported in specific cases and explains how the press

could increase its independence of Washington in reporting foreign policy news The author constructs a new framework for thinking about press government relations based on the observation that bipartisan support for U S intervention is often best interpreted as a political phenomenon not as evidence of the wisdom of U S policy Journalists should remember that domestic political factors often influence foreign policy debate The media Mermin argues should not see a Washington consensus as justification for downplaying critical perspectives

The Global War on Terrorism John Davis,2004 The signal events opening the global war on terrorism were the attacks of September 11 The world media began to focus on one of the terrorist groups Al Qaeda a well funded terrorist organisation headquartered in Afghanistan or Pakistan with offshoots in many countries America has turned out to be the primary target of Al Qaeda America s first response was the attack on Afghanistan and the establishing of a puppet government Next America attacked Iraq under the guise of a response to terrorism although no connection has been proven or even alleged except by hardcore neocons aligned with certain elements in the Washington power establishment This new book pierces the veil of misinformation with frank assessments of the progress or lack thereof of the war on terrorism Contents Introduction Homeland Security from Clinton to Bush Assessment United States Homeland Security in the Information Age Dealing with the Threat of Cyberterrorism Presidential War Powers and the War on Terrorism Are We Destined to Repeat Our Mistakes International Law and the War on Terrorism The Evolution of American Grand Strategy and the War on Terrorism Clinton and Bush Perspectives Assess

Debating Terrorism and Counterterrorism Stuart Gottlieb,2013-04-02 Debate is an important part of the classroom experience However most debate style readers do a disservice to students by selecting readings from disparate sources that end up talking past one another As a part of the Debating Politics series from CQ Press this reader is different Featuring paired pro con pieces written specifically for this volume Debating Terrorism encourages students to actively grapple with the central debates and questions surrounding the subject of terrorism and counterterrorism With topics ranging from the root causes of terrorism the role of religion in terrorism whether suicide terrorism is ever justified whether the spread of democracy can help defeat terrorism and what trade offs if any should exist between security and civil liberties Gottlieb s outstanding cast of contributors returns in this edition compelling students to wrestle with the conflicting perspectives that define the field Gottlieb frames the complexity and sophistication of these issues with incisive chapter headnotes providing students with the requisite context and preparing them to read each argument critically allowing them to understand the past present and future of terrorism and counterterrorism Each of the selections has been thoroughly updated to account for recent world events policy changes and new scholarship New to the reader and by reviewer request is a chapter Can Global Institutions Make a Difference in Fighting Terrorism

The War Power in an Age of Terrorism Michael A. Genovese,David Gray Adler,2016-12-22 This book features a lively debate between two prominent scholars Michael A Genovese and David Gray Adler on the critical issue of whether the

Constitution written in the 18th Century remains adequate to the national security challenges of our time The question of the scope of the president s constitutional authority if any to initiate war on behalf of the American people long the subject of heated debate in the corridors of power and the groves of academe has become an issue of surpassing importance for a nation confronted by existential threats in an Age of Terrorism This question should be thoroughly reviewed and debated by members of Congress and considered by all Americans before they are asked to go to war If the constitutional allocation of powers on matters of war and peace is outdated what changes should be made Is there a need to increase presidential power What role should Congress play in the war on terror
