Debating Globalization:

Debating Globalization Anthony Barnett, David Held, Casper Henderson, 2013-04-23 *Debating Globalization* is a short accessible introduction to the debate about globalization written by many of the most prominent figures in the field. Published by Polity in association with openDemocracy, the book is notable not just for focusing on the pressing difficulties facing our world but also on solutions. Rich and positive suggestions are made for reshaping globalization into a force that will work for humans everywhere. In an extended analysis, David Held provides a robust critique of the present order and sets out his alternative vision. Building on arguments he made in *Global Covenant*, he calls for a new global political agenda informed by social democratic political values. His analysis has been criticized by leading figures and their responses follow in this book. There are chapters by, among others, Martin Wolf, Roger Scruton, Grahame Thompson, David Mepham, Meghnad Desai, Maria Livanos, Cattai, Patrick Bond, Benjamin Barber, John Elkington, Takashi Inoguchi, Narcís Serra, and Anne Marie Slaughter, and Thomas N. Hale. The volume ends with David Held's reply to his critics. The book provides a fascinating introduction to the debate about globalization today.

Debating Globalization John Balouziyeh, 2006-01-13 Does globalization alleviate world poverty or contribute to it? Does it harm local culture or bring people together? Has free trade hurt the poor more than helped? What are globalization's effects on the environment and human rights? This book is a forum where dynamic youth from around the world debate these issues. Contained in this volume are provocative articles from both sides of this controversial debate. In these pages we hear youth speak about what is right with globalization, what is wrong, and how diverse actors can join forces in ensuring tomorrow's peace, security, and sustainability. I am happy to commend this book to anyone who wants to share the visions of our world's youth on the important issues of our day.

The RoutledgeFalmer Reader in Education Policy and Politics Bob Lingard, Jenny Ozga, 2007-01-24 This Reader brings together selected papers from leading scholars to address the most significant recent development in educational policy and politics: the impact of globalisation. The papers discuss, document, and analyse evidence of globalisation's effects on the new direction of education policies and practices and in the production of globalised agendas for the redesign of state provision and the governance of education. The Reader is organised in two parts. The first part provides a selection of articles that interrogate globalisation and its effects from a variety of analytical perspectives and explore what kind of politics are possible in the framing context of globalisation. The second part documents and discusses different types of engagement with politics and policy in a variety of settings and sectors, including numerous European and Pacific Rim policy contexts. This important collection underlines the need to approach globalisation, education, policy, and politics from numerous perspectives and offers analytical, empirical, and theoretical resources for the reframing of contemporary education politics. Students of educational policy and politics will find this Reader an invaluable resource for understanding, theorising, and researching in these academic fields.

Changing Educational Contexts, Issues and

Identities Michael Crossley, Patricia Broadfoot, Michele Schweisfurth, 2007-01-24 Documenting major intellectual and paradigmatic changes in the field of comparative education in the light of the history and development of the journal *Comparative Education* this book compiles a selection of articles from forty years of the journal's distinguished history. It illustrates how changing times have been reflected in the nature and quality of published comparative research. Contributors explore the impact of key issues such as marketisation, accountability and globalisation upon policy and practice world wide. They explore how new challenges faced by the social sciences have seen shifts in the contexts, issues and priorities attended to by comparativists and how different approaches to comparative education have influenced the intellectual and professional identities and positioning of those involved. Bridging theoretically oriented scholarship with empirically grounded research relating to issues of policy and practice and with chapters addressing questions of relevance throughout the world, this book is an invaluable resource of ideas and stimuli for further thinking and research. *Monthly Labor Review*, 2011-10 Publishes in depth articles on labor subjects, current labor statistics, information about current labor contracts and book reviews.
