Debt And Disorder International Economic Instability And Us Imperial Decline:

The Global Capitalist Crisis and Its Aftermath Berch Berberoglu, 2016-12-05 Written by a team of experts on the contemporary global capitalist political economy who are able to shed light on the inner workings of global capitalism and the capitalist globalization process that has led to the growth and development of capitalism from the national to the global level this groundbreaking volume provides critical analyses of the causes and consequences of the Great Recession of 2008 2009 Through a careful examination of the origin development and aftermath of the catastrophic economic crisis from which the world is still trying to recover editor Berch Berberoglu and his colleagues demonstrate that those most responsible for the economic collapse are the ones least affected by its devastating impact felt most severely by working people around the world Ultimately this book argues that it is only through the systematic restructuring of the world economy by the working class that society will be able to prevent the boom and bust cycle of global capitalist crises and usher in a more egalitarian socialist economy and society

The Politics of the New International Financial Architecture Susanne Soederberg, 2004-11 This is a critique of the attempts of the G7 industrialized countries to rewrite the rules of international finance It includes case studies on capital controls from Chile and Malaysia and is aimed at scholars and students of international political economy and development and reform activists

The Other Canon of Economics, Volume 1 Erik Reinert, 2024-02-13 Other Canon Economics Essays in the Theory and History of Uneven Economic Development brings together key essays on development economics from one of the most prolific and important development economists and historians of economic policy today Erik S Reinert argues through essays ranging from 1994 to 2020 that neo classical economics damages developing countries the theory of comparative advantage leaves out a number of factors which make economic activities qualitatively different as carriers of economic growth Based on a long intellectual tradition started by the Italian economists Giovanni Botero 1589 and Antonio Serra 1613 and later used in virtually all presently industrialised countries Reinert shows that the country which exports increasing returns goods e g high end manufacture has advantages over the country which exports diminishing returns goods e g commodities This has important implications for today s development strategies that Reinert argues should be seen as industrial strategies

Against Global Apartheid Patrick Bond, 2003 In Against Global Apartheid Patrick Bond reveals the extent of the economic and human damage caused by policies implemented by World Bank and the IMF in developing countries particularly South Africa and argues that there is another way to more socially just economic development
