Decision Making Models And Algorithms A First Course:

Decision Making, Models and Algorithms Saul I. Gass, 1985 **Decision Making, Models and Algorithms** Saul I. Gass, 1985-05-10 The first book to integrate the decision making process through mathematical modelling Using the concept of a decision framework the ideas of decision making models and algorithms are introduced to the reader by way of realistic and entertaining problems The structure form illustrations problems and challenges in this book provide a unique presentation of the subject matter *Encyclopedia of Decision Making and Decision Support Technologies* Adam, Frederic, Humphreys, Patrick, 2008-04-30 As effective organizational decision making is a major factor in a company's success a comprehensive account of current available research on the core concepts of the decision support agenda is in high demand by academicians and professionals Through 110 authoritative contributions by over 160 of the world's leading experts the Encyclopedia of Decision Making and Decision Support Technologies presents a critical mass of research on the most up to date research on human and computer support of managerial decision making including discussion on support of operational tactical and strategic decisions human vs computer system support structure individual and group decision making and multi criteria decision making **Creative Decision Making** Joe Johnson, 1995-06-01 This title looks at the nature of problems and decisions recognising defining and analysing the problem as well as classifying problems as operational tactical or strategic Being able to recognise relative urgency and importance developing valid options and finding the best solution Profiles in Operations Research Arjang A. Assad, Saul I. Gass, 2011-06-28 Profiles in Operations Research Pioneers and Innovators recounts the development of the field of Operations Research OR the science of decision making The book traces the development of OR from its military origins to a mature discipline that is recognized worldwide for its contributions to managerial planning and complex global operations Over the past six decades OR analyses have impacted our daily lives when making an airline or hotel reservation waiting in line at a bank getting the correctly blended fuel at the gas station and ensuring that the book you are holding arrived at its destination on time OR originated in the late 1930s when British scientists from various disciplines joined Royal Air Force officers to determine the most effective way to employ new radar technology for intercepting enemy aircraft During World War II similar applied research groups were formed to study test and evaluate military operations on both sides of the Atlantic Their work resulted in great improvements OR helped the Allies win the war The scientific field that emerged from these studies was called operational research in the U K and operations research in the U S Today OR provides a broad and powerful science to aid decision making Profiles describes the lives and contributions of 43 OR pioneers and innovators and relates how these individuals with varying backgrounds and diverse interests were drawn to the nascent field of OR The profiles also describe how OR techniques and applications expanded considerably beyond the military context to find new domains in business and industry In addition to their scientific contributions these profiles capture the life stories of the individuals interwoven with personal tales vivid vignettes family

backgrounds and views of the mission and future of OR Collectively the profiles recount the fascinating story of the growth and development of a field enriched by the convergence of different disciplines The Editors Arjang A Assad is Dean of the School of Management University at Buffalo State University of New York Saul I Gass is Professor Emeritus Department of Decision Operations Information Technologies Smith School of Business University of Maryland College Park From the Reviews Profiles In Operations Research Pioneers and Innovators Book Review by Nigel Cummings U K OR Society s e journal Inside OR Sept 2011 I can thoroughly recommend this book I found it both enlightening and undeniably gripping so much so in fact you may find it difficult to put it down once you have commenced reading it Arjang A Assad and Saul I Gass have created a masterwork which will serve to immortalise the pioneers of OR for many years to come For a list of all known typos plus further discussion on the book please visit <http://profiles.inoperationsresearch.com>

Perspectives in Operations Research Frank B. Alt, Michael C. Fu, Bruce L. Crowley,Thomas R. Zentall,2013-01-30 Decision making cuts across most areas of intellectual enquiry and academic
endeavor The classical view of individual human thinkers choosing among options remains important and instructive but the
contributors to this volume broaden this perspective to characterize the decision making behavior of groups non human
organisms and even non living objects and mathematical constructs A diverse array of methods is brought to bear
mathematical computational subjective neurobiological evolutionary and cultural We can often identify best or optimal
decisions and decision making processes but observed responses may deviate markedly from these to a large extent because
the environment in which decisions must be made is constantly changing Moreover decision making can be highly
constrained by institutions natural and social context and capabilities Studies of the mechanisms underlying decisions by
humans and other organisms are just beginning to gain traction and shape our thinking Though decision making has
fundamental similarities across the diverse array of entities considered to be making them there are large differences of
degree if not kind that relate to the question of human uniqueness From this survey of views and approaches we converge on
a tentative agenda for accelerating development of a new field that includes advancing the dialog between the sciences and
the humanities developing a defensible classification scheme for decision making and decision makers addressing the role of
morality and justice and moving advances into applications the rapidly developing field of decision support **Artificial
