Decision Support Systems For Management Accountants:

Decision-support and Expert Systems for Management Accountants Howard M.. Armitage, Jefim Efrim Boritz, Society of Management Accountants of Canada. Research Studies Committee, 1991 *Decision Support Systems for Management Accountants* Germain B. Boer, 1987 **Decision-support and Expert Systems for Management Accountants** Howard M. Armitage, Jefim Efrim Boritz, Greg Iannou, Lynne Missen, Society of Management Accountants of Canada. Research Studies Committee, 1991 **Manufacturing Decision Support Systems** Hamid R. Parsaei, Thomas R. Hanley, S.S. Kolli, 2012-12-06

During the last two decades a tremendous growth in the popularity and applications of computers in manufacturing has occurred Computer aided design computer aided manufacturing flexible manufacturing systems group technology and many others are considered by many manufacturing executives as the most promising technologies and philosophies that if successfully implemented can reduce costs and enable the US manufacturing companies to become more competitive in the global market In the computer integrated manufacturing environment the decision processes are often more involved The decision makers are frequently required to have access to a vast amount of data to support and analyze their complex decision problems at strategic and tactical levels Decision support systems are often referred to as computer based information technologies that allow the decision makers to interactively communicate and solve the decision problems Manufacturing Decision Support Systems is intended to report the latest developments and address the central issues in this area This volume consists of 14 refereed chapters written by leading researchers from academia and industry

Introducing Decision Support Systems Paul N. Finlay, 1994 This new edition is updated throughout In particular there is a new chapter on the human computer interface and the vital question of measuring the success of decision support systems is given full treatment Concludes with a discussion of the relationship between expert systems and decision support systems and a brief look at future developments Introducing Decision Support Systems is aimed at advanced undergraduate and postgraduate students in schools of management business studies and computing It will also be extremely relevant to professionals dealing with decision support systems e g accountants managers and IT staff **Cost & Management**

Accounting - An Introduction, 2007 *Fusing Decision Support Systems Into the Fabric of the Context* Ana Respício, Frada Burstein, 2012 The field of Information Systems has been shifting from an immersion view AE which relies on the immersion of information technology IT as part of the business environment to a fusion view AE in which IT is fused within the business environment forming a unified fabric that integrates work and personal life as well as personal and public information In the context of this fusion view decision support systems should achieve a total alignment with the context and the personal preferences of users The advantage of such a view is an opportunity of seamless integration between enterprise environments and decision support system components Thus researchers and practitioners have to address the challenges of dealing with this shift in viewpoint and its consequences for decision making and decision support systems theories and

applications This book presents the latest innovations and advances in decision support systems with a special focus on the fusion view These achievements will be of interest to all those involved and interested in decision making practice and research as well as more generally in the fusion view of modern information systems The book covers a wide range of topical themes including a fusion view of business intelligence and data warehousing applications of multi criteria decision analysis intelligent models and technologies for decision making knowledge management decision support approaches and models for emergency management and medical and other specific domains

Decision Support for Management Ralph H. Sprague, Hugh J. Watson, 1996 Explores the variety and richness of support systems as well as the wide range of users problems and technologies employed and illustrates how the concepts and principles have been applied in specific systems Designed to be a primary text for understanding this continually developing field to help readers and practitioners understand the principles and concepts that guide the development and use of these systems KEY TOPICS The authors include the full range of systems and users but with some extra emphasis on managers and their use of systems such as EIS rather than an emphasis on management analysts who develop expert systems integrated approach with articles from

literature and special contributions solicited from leaders in the field teaches readers how to develop applications in the real world Cost and Management ,1984 **Decision Support Systems Research and Reference Disciplines, 1970-2001**

Sean B. Eom,2003 This is a research guide and bibliography with citation frequency on the decision support systems research area and its references disciplines It contains only references that have been cited frequently by more than several thousand authors of decision support systems articles published in a set of carefully selected journals according to objective criteria set forth in a data chapter Each item in the bibliography of the book contains the citation frequency representing its weight and degree of influence on the decision support systems research Each item represents objective and unobtrusive judgment of all the authors of major articles published in more than 140 information systems journals during 1970 2001 It will be a useful research guide to the DSS literature **International Encyclopedia of Business and Management:**

Accounting - Deconstruction analysis and management Malcolm Warner,1996 *Managerial Accounting* Lawrence A. Gordon,2000 The 5th edition of *Managerial Accounting Concepts and Empirical Evidence* by Dr Lawrence A Gordon the Ernst Young Alumni Professor of Managerial Accounting in the Robert H Smith School of Business at the University of Maryland and published by McGraw Hill is leading the way in showing the impact of the new information economy on managerial accounting Although maintaining its grounding in economic concepts this new edition of the book has explicitly integrated discussions on the Internet e commerce enterprise resource planning ERP software and Internet based often called dot com firms into such managerial accounting topics as profit planning activity based costing pricing decisions and performance measures For example in the chapter on financial performance measures the reader finds a discussion on how the traditional link between accounting earnings and market value needs to be reconsidered for Internet based firms In addition relevant websites are provided on the inside of the back cover of the book Furthermore supplementary material is easily accessed and downloaded via the Internet Like earlier editions the fifth edition of the book is still intended to be a text with a research flavor As such the book is primarily intended for a first year MBA MS course in managerial accounting The book is also appropriate for a first course in managerial accounting for talented undergraduate students By focusing on the book's more quantitative material including Appendices strategy organizational change material and the references to empirical studies the book would be appropriate for a graduate level as well as undergraduate level advanced managerial accounting course Earlier editions of the book have also been very successfully utilized in executive development programs and the new edition should be even more appropriate for such use due to its emphasis on the new information economy For more information about this book check out the author's home page at the University of Maryland <http://www.rhsmith.umd.edu/accounting/lgordon> **Organizational Decision Support Systems** Ronald M. Lee,Andrew M.

McCosh,Piero Migliarese,1988 *Decision Support Systems* DSS are typically viewed as computerized aids for managerial decision making at the individual level By contrast this volume focuses on DSS for group and organizational decision making

The contributions are from academics and practitioners who are developing new concepts techniques and software to support decision related activities involving multiple participants The book is in five sections The first looks at the organizational setting of group decision support systems and experiences of various enterprises in their use The second section is concerned with supporting negotiation processes decision situations where the participants have conflicting goals The third section deals with analysis and design issues in developing group organizational DSS Behavioral issues relating to the impact of the technology are examined in section four while the fifth section discusses practical experiences with group decision rooms

Managerial Accounting Ronald W. Hilton,Roland A. Minch,1996 **Accounting Information Systems for Decision Making** Daniela Mancini,Eddy H. J. Vaassen,Renata Paola Dameri,2013-04-18 This book contains a collection of research papers on accounting information systems including their strategic role in decision processes within and between companies An accounting system is a complex system composed of a mix of strictly interrelated elements such as data information human resources IT tool accounting models and procedures Accounting information systems are often considered the instrument by default for accounting automation This book aims to sketch a clear picture of the current state of AIS research including design acceptance and reliance value added decision making interorganizational links and process improvements The contributions in this volume emphasize that AIS has grown into a powerful strategic tool The book provides evidence for this observation by examining a wide range of current issues ranging from theory development in AIS to practical applications of accounting information systems In particular it focuses on themes of growing interest in the realm of XBRL and Financial Reporting Management Information Systems IT IS Audit and IT IS Compliance The book will be of interest to financial and managerial accountants and IT IS practitioners including information systems managers and consultants
