Decision Making Capacity And Older Persons

Thomas O. Blank

Decision Making Capacity And Older Persons:

Changes in Decision-Making Capacity in Older Adults Sara Honn Qualls, Michael A. Smyer, 2008-02-13 Part of the Wiley Series in Clinical Geropsychology *Changes in Decision Making Capacity in Older Adults* Assessment and Intervention helps to familiarize you with the legal and social contexts for decision making in potentially impaired individuals Editors Sara Qualls and Michael Smyer have brought together a notable team of international contributors to provide you with a unique framework of the legal social and psychological approaches to assessing the ability of older adults to make decisions

Ethics, Law, and Aging Review, Volume 10 Marshall B. Kapp, 2004-12-06 Although the topic of decision making capacity and older persons has been discussed in the literature there still is much to be learned about it theoretically and practically Experts continue to disagree about which standards are important for assessing decision making capacity Questions such as When should a capacity assessment be done on an older person and by whom are covered by the editors Topics included in this volume are the application of an original framework for ethical decision making in long term care an elder's capacity to decide to remain living alone in the community the quest for helpful standardized instruments for evaluating decision making capacity and end of life liability issues *Nursing for Wellness in Older Adults* Carol A. Miller, 2009 Now in its Fifth Edition this text provides a comprehensive and wellness oriented approach to the theory and practice of gerontologic nursing

Organized around the author's unique functional consequences theory of gerontologic nursing the book explores normal age related changes and risk factors that often interfere with optimal health and functioning to effectively identify and teach health promotion interventions The author provides research based background information and a variety of practical assessment and intervention strategies for use in every clinical setting Highlights of this edition include expanded coverage of evidence based practice more first person stories new chapters and clinical tools such as assessment tools recommended by the Hartford Institute of Geriatric Nursing **A Casebook of Mental Capacity in US Legislation** Lynn A.

Schaefer, Thomas J. Farrer, 2022-06-30 *A Casebook of Mental Capacity in US Legislation* Assessment and Legal Commentary employs an applied and accessible approach to the assessment of mental capacity Through the use of rich vignettes and case examples the text provides legal commentary to illustrate state laws and ethical principles from varied decision making capacities in distinct settings to fortify its assessment The text begins by providing a background about decision making capacity as a construct It also provides practical guidance on capacity assessment germane to a broad range of clinical settings including geropsychology health psychology and neuropsychology It moves on to reviewing decision making rights that make up capacity and provides ethical guidelines while drawing the practitioner's attention to the common pitfalls The case presentations and legal commentary underline key areas such as the capacity to consent to medical treatment make welfare decisions enter into a sexual relationship make financial decisions create or revoke a will litigate and contract and stand trial It also includes a chapter focusing on integrating culture and diversity in capacity evaluations with the aim of

increasing the practitioner's competence This casebook will be useful for clinical psychologists in practice researchers and students seeking to understand how to perform capacity assessments as well as other related healthcare professionals It is further aimed at legal professionals to utilize as a reference that details how individual types of capacity are defined and assessed **Gerontology and Geriatrics for NPs and PAs - E-Book** Jill R. Beavers-Kirby, Freddi I.

Segal-Gidan, 2023-03-23 Written by NPs and PAs who have a wealth of experience in the care of older adults across all practice settings Gerontology and Geriatrics for NPs and PAs takes an evidence based approach to both gerontology and geriatrics incorporating the latest national and international guidelines and standards of care This first of its kind text takes an interprofessional teamwork based approach that reflects Interprofessional Education Collaborative IPEC core competencies as well as the unique perspectives that NPs and PAs each bring to the collaborative care of older adults Covers both primary care and acute care of older adults and fully addresses both graduate level and practitioner core competencies necessary for optimal care of older adults Places a strong emphasis on wellness including nutrition and the Healthy People 2020 targets normal aging common syndromes of aging disease management patient safety particularly in acute care settings and a patient centered care approach Features vibrant full color illustrations a full color design for ease of navigation and graduate level learning features that include Key Points at the end of each chapter for quick reference and exam preparation Addresses a wide range of topics specifically focused on the common medical problems of older adults with chapters logically organized for efficient study and quick clinical reference Evolve Instructor site with an image collection and test bank is available to instructors through their Elsevier sales rep or via request at <https://evolve.elsevier.com>

Handbook of Models for Human Aging P. Michael Conn, 2011-04-28 The Handbook of Models for Human Aging is designed as the only comprehensive work available that covers the diversity of aging models currently available For each animal model it presents key aspects of biology nutrition factors affecting life span methods of age determination use in research and disadvantages advantages of use Chapters on comparative models take a broad sweep of age related diseases from Alzheimer's to joint disease cataracts cancer and obesity In addition there is an historical overview and discussion of model availability key methods and ethical issues Utilizes a multidisciplinary approach Shows tricks and approaches not available in primary publications First volume of its kind to combine both methods of study for human aging and animal models Over 200 illustrations Self-Neglect in Older Adults Mary Rose Day, Geraldine McCarthy, Joyce J.

Fitzpatrick, 2017-08-28 An unequalled compendium of cutting edge information on self neglect This authoritative resource in provides nurses and healthcare professionals with a comprehensive overview and analysis of self neglect in older adults With an aging global population self neglect is emerging as a complex problem that crosses multiple disciplines of health and social care Characterized by a harmful inattention to health and hygiene self neglect manifests in a variety of ways across the world that healthcare professionals need to be able to recognize and manage The only text with the latest analysis of

theoretical perspectives research and evidence from global leaders in the field chapters tackle the interdisciplinary problem of self neglect to deliver current professional practice tools and clinical practice interventions Replete with case studies that examine the ethical legal and medical issues of self neglect the content is immediately applicable to researchers and clinicians An extensive list of contributors from the U S Ireland England Scotland Australia Israel Canada and Korea include respected researchers practitioners and academics from multiple health and social care disciplines along with health and social care services who have played a critical role in advancing research public awareness and policy on self neglect Key Features Delivers multi faceted cutting edge information on self neglect in older adults for nurses and related healthcare professionals Addresses theory research evidence assessment and measurement and clinical practice interventions Includes practical applications case studies and illustrations in each chapter Authored by an international panel of authoritative leaders in gerontology Provides debate and discussion on self neglect that will promote further enquiry and research

Elder Abuse XinQi Dong, 2017-02-22 This book provides a global comprehensive and systematic state of the review of this field that fills the gaps between research practice and policy The book addresses the epidemiology of the issue and the global prevalence of elder abuse in both developed and developing countries which synthesizes the most up to date data about risk factors and protective factors associated with elder abuse and consequences of elder abuse clinical assessment and management of elder abuse including screening detection management of elder abuse and the role of decision making capacity and forensic approaches practice and services that describe adult protective services legal justice elder court systems and guardianship system elder abuse and culture which provides more in depth anthropological and ethnographic experiences policy issues which highlights the elder justice movement GAO reports elder justice act older American act and elder justice coordinating council and future directions which explores translational research practice education training and policy issues surrounding elder abuse Elder Abuse Research Practice and Policy is a useful resource for aging researchers social services general internists family medicine physicians social workers nurses and legal professionals interested in the issues of elder abuse

Older Adults' Decision-making and the Law Michael A. Smyer, 1996 **Capacity Assessment and the Law** Kelly Purser, 2017-05-22 This book discusses theoretical issues standards and professional considerations arising when legal and health practitioners undertake legal capacity assessments in the context of wills enduring powers of attorney and advance health directives The potential loss of cognition can erode autonomy as individuals lose the ability to make their own legally recognised decisions This is an inescapable problem with significant legal social health and policy repercussions This work synthesises and critically analyses the existing literature including some of the best assessment models and guiding principles internationally to generate a new methodology and understanding of what capacity assessment best practice means This includes the impact of assessments on individual autonomy the ideal method building upon respect for both autonomy as well as fundamental human rights The triggers to assess capacity who to involve in the

assessment process as well as how to conduct that assessment process are discussed The crucial relationship between the legal and health professionals involved in assessments including growing concerns around practitioner liability is also explored This analysis is undertaken through the innovative use of a therapeutic jurisprudence lens the effect of which is to contribute new knowledge to this complex field

Nursing Care of Older Adults Carol A. Miller, 1999 Fully revised and updated Nursing Care of Older Adults Third Edition delivers the information today's nurses need to improve the functioning and quality of life for older adults Focused on wellness the text highlights that older adulthood need not be a time of illness or infirmity

Ethics and the Elderly Mark R. Wicclair, 1993 With the increasing growth of the elderly population geriatric care is becoming eminently important not only to medical professionals but also to all those involved in caring for the elderly including social workers nursing home staff and relatives This timely work confronts in a clear and systematic manner the many ethical issues concerning care for elderly persons For instance what is sound ethical decision making in relation to life sustaining medical treatment for elderly patients At a time when aging of the population is increasing the demand for health care is age rationing a justified means of cost control How can investigators satisfy ethical requirements in relation to medical or social scientific research with elderly subjects and what special precautions are needed when elderly persons are ill demented dependent on social services and/or institutionalized What are the responsibilities of adult children toward frail elderly parents How can professionals and relatives determine whether paternalism toward an elderly person is ethically justified In an accessible way this book explains the ethical and conceptual issues at stake Several key examples are presented and each chapter ends with an extensive case study and analysis Ethics and the Elderly will be a valuable resource for all those involved in geriatric care and to many in the field of bioethics
